

# Plan to Enlarge Our Blood Donor List

— at —  
ST. ANTHONY'S HOSPITAL

Many of our patients who need blood

- 1) Do so in an emergency.
- 2) Or do not have friends or relatives whose blood will match.

In this case the KC's, as well as a number of other people of O'Neill and nearby towns, have been most cooperative. Due to this generosity, no patient at St. Anthony's has ever suffered from want of blood. However, there are instances in which the hospital is very hard put; a would-be donor cannot be located or is temporarily unable to donate blood. For these reasons, the hospital is desirous of enlarging its donor list through volunteers with the following qualifications:

- 1) Age—17 to 65 years.
- 2) Good health (if in doubt, do not offer).
- 3) Know their group and type. If they do not, we will do this free to those who are willing to donate blood.
- 4) There are times when even a healthy person is unable to give blood. In that case, be free to say so. We do not want to jeopardize anyone's health.

Remember, this is a service you render to the patient, not to the hospital. (The institution has to make a service charge for work and equipment.) Below find a form you might fill in and send to:

A frequent question: How often may a person give blood? The answer is: A healthy person may give blood every four months.
