Design For Modern Living

Remember that popular slogan of a few years back—"Modern design makes the big difference"? It certainly has lost none of its meaning in the space of those short years and, if anything, is loaded with more impact than ever. And it's evident that this theme was followed in decorating this room—new miracle fiber carpeting to resist the hardest wear and tear; straight-lined tables and cabinets saved from severity by their satin-smooth fine woods; colorful prints in broad modern frames to match the light wood furniture; a smart Barcelona reclining chair. Today's homemaker knows that the hectic pace of modern living calls for quick comfort and easy relaxation—and that this new reclining chair's deep-seated comfort and sleek looks exactly meet that need.

Tinder Dry Fields Present Fire Hazard

Rock Falls Writer Urges Caution

ROCK FALLS—As if it hasn't been bad enough to endure the heat and the drought of the past weeks, there is the ever-present danger of fire.

Even the elements are taking another stand against the citizenry.

Lightning has started numerous fires. With everything ash dry, the danger is one hundred fold greater, making it even more important that every precaution be taken in avoiding a catastrophe, writes Mrs. Floyd Johnson, The Frontier's correspondent.

Mr. and Mrs. George Calkins were enjoying supper on Friday at the home of their daughter and son-in-law, Mr. and Mrs. Don Hynes. They were rudely interrupted as the call came over the phone announcing a fire near their land. This broke up the party in a hurry as the Calkins "flew" for home. Upon arriving in their vicinity they found the blaze, apparently started by lightning, was well in hand.
