PHOTOGRAPHY AND FANTASY

Photographers' and travelers' paradise is fabulous Disneyland, the 160-acre roadside wonderland, created by Walt Disney. There, "Main Street, U.S.A." represents a small-town thoroughfare, vintage 1893—complete with photogenic horse cars like this, old opera house, penny arcade, and an old-time portrait studio and camera shop created by the Eastman Kodak Company. For present-day picture-takers, the exhibit offers a group of experts who answer questions about photographing the unforgettable wonders of Disneyland.

Most Trees, Shrubs Still Have Leaves

CELIA—The Celia community received its first snow of the season early Sunday morning, October 23. Snow covered the leaves of trees and the grass and melted as it hit the ground. Most trees and shrubs still have leaves.

As temperatures climbed the snow soon melted but gave some needed moisture.
