

Nixon Coming to Lincoln

LINCOLN—The annual republican rally, founders day, to be held Monday, March 19, is expected to draw a heavy crowd for two reasons.

First, the scheduled speaker is Vice-President Richard Nixon.

Secondly, the party's pre-primary convention, at which a national committeeman will be elected, will be held the same day. Both affairs will be in the University of Nebraska coliseum.

The convention is slated for 9 a.m. with the customary business and luncheons for men and women to follow. Nixon will speak following a chicken box supper.

Joseph Wishart, senior founders day president, said an effort will be made to persuade Nixon to spend a day or two in Nebraska.

As it now stands, the center will get \$300,000 which has another year to be put under contract and have first priority on other money congress may appropriate.

The first \$300,000 will go to the Immanuel Deaconess Hospital, Bramwell Booth Memorial hospital—operated by the Salvation Army—and the Lutheran hospital. All three are in Omaha.

The center will be on the University of Nebraska medical college campus in Omaha. Land was purchased with \$480,000 allocated by the legislature.

Air Travel Hike Urged
The civil aeronautics board in Washington is studying a request by the Nebraska aeronautics department to survey air travel in the state.

The department wants the CAB to approve a "master plan" designed to add air service to seven cities, possibly nine. They are Ainsworth, Beatrice, Chadron, Hastings, Kearney, McCook and Sidney, and possibly Fremont and Columbus.

Service, under the plan, would be increased at Lincoln, Omaha, Norfolk, Alliance and Scottsbluff. James Ramsey, department director, said the request was made because the department feels air service in the state now is "inadequate."

Rehab Request Denied
The proposed new children's center in Omaha will not receive \$300,000 in federal funds—money that must be under contract by June 30 or be returned.

The advisory state hospital council voted 5-1 not to reaffirm its original allocation of the money to the center, where crippled children will get treatment and education.

The council said it feared sponsors of the center could not get the contracts let by June 30. If that happened, the council said, the money would be lost and the center would get no further federal aid.

Make This Ruler Test...

See What Plowing with TA Means . . .

Try The FARMALL® 300 or 400 Tractor, With TA, On Your Own Farm

See and feel the difference TA makes in plowing. Measure furrow depth in gumbo . . . on a hillside . . . in easy going. Your ruler reads the same because TA lets you boost pull-power up to 45% . . . on the go . . . without shifting down . . . or shallowing out to keep going.

Try TA on other jobs, too, and see and feel the difference. See how it gives you 10 speeds forward and two reverse. See how easily you match pull-power and speed to the load . . . without clutching or shifting. See how TA saves time, improves your work, cuts your operating costs.

Only a Farmall Gives You All These Advantages

- Fast-Hitch**—Just back . . . click! and go! You hitch or switch jobs seconds—fast . . . hold implements rigid or let them "float."
- Hydra-Touch**—You operate up to 3 double-acting cylinders—one at a time or all together—for complete implement control.
- Independent PTO**—Teamed with TA it gives you separate engine performance. You stop or start pto with tractor moving or standing.
