Letter to Editor Dear Editor: A movement is underway to secure parimutuel betting for O'Neill and "building a track for horse racing, auto racing, athletic field, 4-H work and other activities." The parimutuel is a multimillion dollar racket for the promoters across our nation. It is made to look desirable by donations of a few well placed thousands in county fairs, 4-H club and other worthwhile activities—if you accept the gifts you can't condemn the racket—but in reality it takes out far more money for its own coffers than it returns to a community, besides the riff-raff of undesirable society that follows in its wake. The report on Ak-Sar-Plen race meet for 1952, as compiled by John M. Gilchrist, company, CPA, August 31, 1952, shows that the total bets for the 35 days were \$12,922,313.00. The mutual commission was 10 percent of that, or \$1,292,231.30. After expenses, including donations to county fairs and other benefits, a net income of \$319,110.82 was left to the promoters. Two more parimutuels were established in Nebraska in 1953, making a total of six mutuels, and it is estimated that \$19,000,000, or an increase of \$2,000,000 was bet last year compared to 1952. It's a growing menace. If we have citizens who can afford—and must pour their money into the parimutuel offers—we have automobiles and busses, let them go where they are, but spare O'Neill and surrounding communities with growing boys and girls from that terrible monster.
