**'No Secret on My Viewpoint'—Curtis**

"There is no secret about where I stand on public issues," said Congressman Carl T. Curtis of Nebraska in a recent speech at Omaha. Mr. Curtis, a 49-year-old native of Minden and veteran of 16 years in congress, is a republican candidate for the six-year term in the United States senate.

"I am not running on pleasant sounding promises," Mr. Curtis said. "My position on all issues is in the public record."

"I have consistently fought new dealism, socialism, and all the other isms which good Nebraskans despise. I have opposed with my voice and my vote the foreign give-away programs. As a matter of fact, I was the first member of congress to make a speech in the house of representatives against the British loan."

"I voted for the Taft-Hartley law," Mr. Curtis continued, "and I still believe in it."

A proposed constitutional amendment which Mr. Curtis has introduced would compel the federal government to spend within its income, and to

systematically pay off the national debt.

"My long record on balancing the budget and reducing federal taxes is an established fact," Mr. Curtis stated.

"I was on record early in favor of the Bricker amendment,

and I will continue to support it," he said.

"I have consistently supported rural electrification, soil conservation and reclamation. I have voted for all legislation to maintain Nebraska's agricultural income," Mr. Curtis said.

"My efforts have been repeatedly opposed by the worst radical left-wing elements in the country," Mr. Curtis stated, "but I have a firm belief that Nebraska voters will continue to approve my record as they have through the years."
