New Church 60 Percent Completed

This is a frontal view of the new St. Joseph's Catholic church in Atkinson, now about 60 percent completed. Workmen had fallen behind about a month due to delays in shipping steel. It is intended to work through the winter, and the church is expected to be completed in the spring. The front of the church is at the halfway mark, workmen said. Gallemore Construction company of Kearney holds the general contract, \$134,977; Martin's of Norfolk, plumbing and heating, \$16,762; Krueger's of Norfolk, electric, \$6,000.—The Frontier Photo by Elwood Brady.

# Another Way to Look At It

(Guest editorial from the Pierce County Leader)

well" card for her was signed by

all present. Naming favorite songs,

the program.

There doesn't seem to be a man or woman alive who hasn't growled at taxes . . . and especially aggravating seem to be those local taxes

the taxes you pay at your own courthouse. You want lower taxes . . . and above all you don't want any higher taxes . . . here is how you can keep taxes down with some facts you may have overlooked:

Consider a county employee . . . he is elected to work for the taxpayer and for easy figuring let's consider his wages \$2,400.00 per year.

Look at it this way . . . that \$2,400 may be the total taxes paid by seven farmers and three businessmen . . . they all have paid \$240 per year. What happens if the three businessmen close their doors because business is bad? That leaves only seven farmers to pay their share and each farmer must then pay \$333.33 instead of only \$240.00 as before the businessmen were forced to

When you spend your dollars in Pierce and other towns in this county you are helping a business that is helping you pay local taxes.

Silent Prayer

One of Nebraska's Richest Marketing Areas

Offered for Member-

Twenty members, one visitor and

two children were present. Delores

Hoffman, vice-president, presided.

Roll call was answered by telling

served by North Nebraska's

fastest-growing newspaper \*

Mrs. Alfred Maas. Later a "get' ing cohostess.

Dollars spent in Norfolk, Omaha or Sioux City never help pay your local taxes. Before you buy it is good business to compare . . . compare visited relatives. quality . . . compare price . . . compare the man behind the product. You will be surprised at how your local Pierce county merchant will give you a "better deal" when all points are compared.

In addition to a better deal you helped keep down taxes when you bought at home. Maybe it's from their home in Chicago, Ill. only a tire, a shirt, a few repairs or some groceries . . . think it over. The out-of-town price was no less but the tax-portion of your dollar helped pay wages of someone in Norfolk, Omaha or Sioux City.

Your patronage locally helps cut your local tax . . . don't fool yourself and help pay for a new school in some far-away town when your youngsters will attend a local school.

Shop at home first . . . if it is not handled by a local merchant that is another story . . . but try locally first because the best bargain of all may

# Be Nylon-Wise In '55!

Snowed under with Christmas shopping? Buying gifts of nylon? Lucky the girls who get nylons this year . . . fabrics are lovelier than ever—more exquisite colors, more dazzling whites, more beautiful designs—and, in addition to all this, there's a new nylon whitener and brightener that will do a "white Christmas" job for you all through the new year . . . instant bluing in bright bead form now has a "plus" to make "washbowl washing" or successful as weeker washing!

"washbowl washing" as successful as washer washing! So, whether you give or receive frilly, lacy presents of nylon, orlon or dacron, see to it that they get the good care they deserve. If you give such gifts, your friends will appreciate these brief laundering hints. Print, or type, these simple directions on a small card suitable for tucking in a bathroom mirror. Include the card in each gift box . . . and, as a special plus, maybe you'll want to include a box of this new nylon

Here are the easy directions for those "gift cards"—and for you: How To Keep Your Nylons Lovely 1. Soak nylons 5 minutes in suds of very hot water and the instant

bluing that comes in bright beads. 2. Suds gently; rinse twice. Extra Beauty Hints: (You may want to make the card large enough to include these "beauty cues"—we know you'll want to make them a

practice in your own nylon care). Always wash white nylons separately from colors. Learn to finger-press for the sake of perfection . . . this simply means to pull seams straight, to shake out ruffles, to shape lace edges as you want them to dry. It is a general "once-over" to do when the garments are hung to dry—and, if convenient, once during the drying period.
