ENGINE OVERHAUL

Gives you "New Tractor" Power Again

An old adage says: "There's a time to fish and a time to mend your nets." You mend nets when you can't fish. It's the same way with farming. Now the rush is over — get set for non-stop farming next spring.

If your tractor lags on the hard pulls, schedule it now for an engine overhaul. You'll be surprised how little it costs to put new life in your old tractor.

We don't just "fix it" — we repower it. Stop in and talk it over.
