Assistant points, can be moved quicker and, in many instances, as cheaply as by freight or parcel post.

Discussion turned to the diversion of mail which had been a factor in the financial losses. Some mail in the Black Hills area is now transported to Crawford by Burlington and even "backtracked" to Chadron by truck. O'Neill formerly was an unloading place for a large volume of mail destined for points north and west.

Stewart said the average daily mail dispatch from Omaha on this line was 1,702 as of October 1, 1952. By October 1, 1954, the figure was 1,032. The decline was noted in the face of increased postal traffic.

Several of the civic groups along the route already have protested this diversion to their congressmen.

## Driving is NOT a right --- You Can Be RULED OFF THE ROAD

When you put the plates on your car and the driver's license in your wallet, you have met your state's requirements to drive. Without these, your time on the highway would be short-lived. It is the Motor Vehicle Department's way of saying, "So far as we can tell, you should be permitted to drive."

But from then on it is up to you. Respect the law and the rules of the road, drive so as not to endanger your life or the lives of others, and you may continue to drive. But—

Those licenses are not a right—they are merely *qualified permission*. They do not say you can weave over the highways intoxicated; that you can drive at dangerous speeds; or that you can commit *any* act that may endanger the public safety. You can't get away with it. Continued bad driving habits, sooner or later, will rule you off the road.

In one year 600,000 drivers had their licenses suspended or revoked—every third one for intoxication. Speeding and recklessness were also high on the list.

Remember—driving is not a right; it is a license which if abused can be withdrawn. Respect it and continue to drive—safely, sanely.

SLOW DOWN—LIVES ARE IN YOUR HANDS!
