WD TRACTOR
with NEW 3-bottom mounted plow

Look at the NEW Allis-Chalmers three-bottom mounted plow on the WD Tractor. Step up to three-plow farming with this new power champion.

Here are three special ways it does more work and spares your muscles:

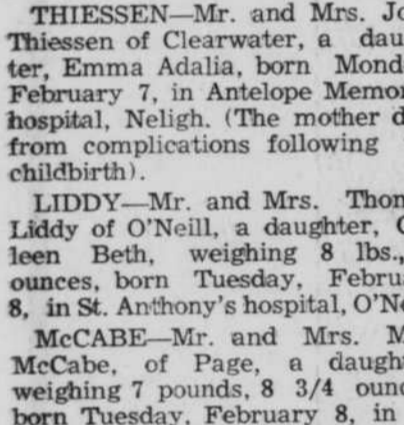

Hydraulic Traction Booster—automatically increases weight on drive wheels as the load increases. Makes possible more actual drawbar pull.

Two-Clutch Power Control—auxiliary hand clutch halts forward travel without interrupting power flow to power take-off.

Power Shift Wheel Spacing—instantly adjusts rear wheel tread with engine power.

Stop in soon and see the WD with its new three-bottom mounted plow.
