Use Greens with Imagination

By BLANCHE SPANN PEASE, Homemaking Editor

My goodness, it just doesn't seem possible that it could be the fourth week in March. If I do say so myself, where can the winter have gone?

This time of the year, I get more than usually hungry for salads. Some how or other they just taste better now.

Green salads are always so good. Be sure you select crisp garden greens that will garnish your salad, if you're going to use a combination. Select the greens from the store with care, treat them tenderly and use them with imagination!

You can keep them fresh for several days by wrapping them in a damp cloth, waxed paper, in a plastic bag or crisper. If you want to crisp greens quickly, put them into ice cold water.

Never add the salad dressing until just before serving because the greens will wilt under oil.

To make lettuce cups, cut out the core or stem of the lettuce head with a pointed knife and let cold water run into the opening. The water forces the leaves apart

and cleanses them. Shake the water from the leaves, drain well and dry carefully by shaking lightly in a clean cloth or towel.

Use the large leaves for the base of the cup and fill with the smaller ones. Use the small inside leaves to hold salads. When the lettuce cup will not balance properly on the plate itself, do not break the rib in the leaf, just place a few pieces of lettuce or other greens back on it for support.

If you are going to use water-cress for greens (and it is so good) keep the stems together in a bundle and wash the bunch under cold running water—it's easier to handle this way. Keep each leaf intact and unbruised. Dry carefully so that the water won't dilute the salad dressing.

Make a picture of your salads. Use a pretty plate as the frame, and don't let the salad extend over the frame. Follow the law of contrasts and use a contrast in color, flavor and texture. Three other good rules for making salads are to have your salads cold, captivating and crisp! You can often save, too, by serving left-over fruit juices in the dressing and odds and ends of vegetables, greens, meats, fish and fruits in salads. And be sure you suit the dressing to the salad. Next week, we'll pass along some salad recipes for you.

PLYMOUTH WINS

FOR 1955 STYLING
OVER "OTHER 2" LOW-PRICE CARS
BY VOTE OF ALMOST 4 TO 1

THOUSANDS PREFER PLYMOUTH'S STYLING IN NATION-WIDE SURVEY!

A well-known independent research organization asked thousands of people—in New York, Chicago, Detroit, Atlanta, Dallas, Los Angeles—to compare the appearance of '55 models of the three low-price cars. Opinions were received from men and women—from people of all ages—from owners of all the different makes of cars. The results are below.

HERE'S WHAT OTHERS THOUGHT OF PLYMOUTH!

Compared with low-price car "A"		Compared with low-price car "B"	
Plymouth is better looking	62%	Plymouth is better looking	66%
Car "A" is better looking	16%	Car "B" is better looking	17%
Almost 4 to 1 in Plymouth's favor!		Again, almost 4 to 1 for Plymouth!	
(22% liked "both about the same")		(17% liked "both about the same")	

HERE'S WHY YOU'LL PREFER PLYMOUTH, TOO!

Plymouth '55—with THE FORWARD LOOK—is the only low-price car to offer you honestly new styling, instead of a mere face-lifting. It's bigger than the "other 2" cars (longer than car "A" by 3.4 inches!). It's lower and sleeker, with a host of styling advances that wins the most applause in the lowest-price field. See everything Plymouth has to offer today!

Yes, the big swing is to Plymouth—See it today—drive it away!
