Holt Firm Low Bidder on 281 5,900 Cubic Yards Gravel Bought

Twenty-five contracts, totaling \$154,720.35 of state maintenance funds for regaveling of state highways, were awarded Saturday by State Engineer L. N. Ress. Fifteen firms shared in the contracts.
 Four of the awards were for work in northern Nebraska. Atkinson Sand and Gravel and Platte Valley Construction Company of Grand Island each won two contracts.
 The Holt county firm is to receive \$10,620 for supplying and placing 5,900 cubic yards of gravel on U.S. 281 between the intersection with U.S. 20 near O'Neill and the intersection with Nebraska No. 12 near Spencer. Four firms bid on this job. The Atkinson bid was \$295 under the second low bid and \$590 beneath the high bid.
 Atkinson has a \$5,343.75 contract for adding 2,375 cubic yards of gravel to Nebraska No. 18 between Spencer and South Dakota. The same four contractors bid on this parcel. The Holt county

gravel supplier's bid was \$370 and \$1,685.25, respectively, under the second low and high bids. The Platte Valley bids were made on the basis that they were effective only if the firm received both jobs. The Holt county contractor is to receive \$15,035 for laying 4,850 cubic yards of gravel on the highway between Jamison and a point a mile south of the Niobrara river and on the eight miles west of Brockburg. A \$4,880.25 contract is for 2,425 cubic yards of replacement gravel to be put on the 14 miles of highway north of Newport, Platte Valley's price for both jobs was \$281 less than another firm that tied the two bids together and \$600.50 less than the lowest bids that were not tied.

"How did it go at school today, young lady?"

This railroader has more than a passing interest in the young lady's welfare because he knows that a good part of the millions of dollars in taxes paid by the North Western every year helps to maintain her school, buy her books and pay her teachers.

Yes, as property owners in your community, we not only contribute substantially to the upkeep of your school system, but, like you, we also pay our proportionate share for municipal improvements—paving of roads and streets, installation of sewers, water mains and the like.

And when you consider that the North Western operates more than 9,500 miles through countless communities in nine midwestern states; that share becomes a large one indeed. For instance, in 1951 our total property tax bill amounted to \$7,440,405. (Of which \$1,941,460 went to the State of Wisconsin alone!)

So you see, widespread though we are, our business is local in terms of your community, whether it's expressed in the tax money we pay, the jobs we provide or the service we render. And that's the way we like it.
