**Truck Hydra-Matic and record high compression insure top performance in the lightweight field**

- Haul heavier loads more easily**
- Shift for themselves—without mistakes**
- Get more power from regular gas**
- Save fuel**
- Cut maintenance costs**
- Save time**
- Spare the drivers**

228 cubic inch engine with 105 horsepower—highest in its class.  
 Dual-Range Truck Hydra-Matic\* unerringly selects the right gear ratio for all needs—automatically.  
 8.0 to 1 compression—highest of any gasoline truck engine—extracts more punch, faster response, from non-premium fuel.  
 Hydra-Matic's 3-speed range for traffic, 4-speed range for open going, cuts engine rpm to the minimum needed for the job.  
 Hydra-Matic's fluid coupling prevents engine strains, shock loading of drive line and rear axle, reducing servicing and repair needs.  
 Better acceleration without shifting lag, cuts "traffic light time" at every stop.  
 Elimination of clutch-and-gearshift effort keeps drivers fresher, more alert to accident hazards.

\*Standard equipment on Package Delivery model; optional at moderate extra cost on the others.
