The JOHN DEERE No. 5 Power Mower

Ever since its introduction in 1934, the John Deere No. 5 Mower has been selling like hot cakes. Never has a tractor mower held such top priority among hay growers, and never has a tractor mower measured up so completely in everything that counts in fast, clean, low-cost mowing.

Working with any make of tractor, the No. 5 mows from 25 to 35 acres per day—cuts clean as a whistle in any crop, any field. Simple, durable, easy to hook up, it's a tractor mower through and through. Its flexible caster wheel and hinged drawbar carriage, and its dependable safety release features have been copied by many but equalled by none. Simple adjustments keep it working like new down through the years. Come in and let us show you why the No. 5 is your best buy.
