Do we really expect the time to come when there will be plenty of college trained teachers so that every two or three pupils can have a teacher?

We should face the facts. Gath. er up these little districts that were laid out in horse and buggy days, put 20 to 30 pupils in a school with two trained teachers and we would have better schools, better students, better pupils.

We are getting just what we asked for. If we hire baby sit-ters, that's what we get. If we keep our schools as they were in grandpa's day, we should not grumble. We buy the latest model car, put bathrooms in our cation act from passage in the farm homes, television sets in the We said we wanted to keep on living rooms and power machingetting our poorly prepared teachers and we are getting ery in the fields.

But our schools were good enough for grandma and grandpa so they are what our children get, too. We just can't change them. If the more progressive citizens attempt to modernize the educational system, too many citizens oppose the move. Nothing

The teachers aren't to blame.

The voter is the only one who can change the present system. If the mother who signed herself "An Amateur" cannot get justified action from her school board. then she can head a group to change the school board. If she is in the right, other parents will join her. And when enough of the people of Holt county become aroused over our educa-tional problems, perhaps we can erase the black mark that episode lest spring in Lincoln gave Holt
