Miss Cobb Weds Grand Islander

STUART—The wedding of Miss Wanda Jean Cobb, daughter of Mr. and Mrs. Stanley Cobb, and Orville Clanton, jr., son of Mr. and Mrs. Orville Clanton, sr., of Grand Island, was solemnized at the Community church in Stuart Thursday afternoon, December 31, at 3 o'clock.

Miss Nanette Cowles played appropriate music before the ceremony and also played the wedding march. Rev. D. D. Su performed the double-ring ceremony in the presence of over one hundred relatives and friends.

The bride wore a blue suit with light blue accessories and carried a bridal bouquet of white carnations.

She was attended by Mrs. Robert Brayton, who wore a grey suit and also carried a bouquet of white carnations.

The bridegroom wore a navy blue suit and his attendant, Robert Brayton, wore a grey suit. Both wore white carnation boutonnieres.

Mrs. Clanton graduated from Stuart high school in the class of 1952 and is a sophomore in Hastings college.

Mr. Clanton completed his high school studies in Grand Island and was also a student in Hastings college.

The couple departed after the ceremony for Hastings where they will live in an apartment while Mrs. Clanton completes this year's term of school.

Showers: Honoree—

STUART—A pre-nuptial shower in honor of Miss Jean Cobb, daughter of Mr. and Mrs. Stanley Cobb, was held in the Community church basement on Wednesday afternoon, December 30. The bride-elect received many gifts.

A lunch was served by the hostesses. Miss Cobb was married Thursday afternoon, December 31, in the Community church to Orville Clanton, jr., of Grand Island.

Revolutionary Styling Features '54 Buick

Buick this week announced a completely new line of automobiles for 1954, studded with the most revolutionary styling changes since the introduction of streamlining. The Buicks for '54 on display at the A. Marcellus showrooms here Friday, January 8.

The new Buicks come in four series with all new, roomier bodies, beautiful new exterior and interior styling, longer wheelbases, panoramic windshields, and more powerful and efficient V-8 engines.

The Special Series makes its debut in the V-8 class in 1954 with a brand new 150-horsepower engine modelled after the valve-in-head V-8 introduced in the Roadmaster and Super Series last year. Horsepower in the Roadmaster has been boosted from 180 to 200, and in the Super from 170 to 182.

New also to the Buick line for 1954 is the Century Series, designed to sell in the price range between the Special and Super. The Century, which features a 200 horsepower Roadmaster engine mounted on a 122-inch wheelbase, has a very high power-to-weight ratio and is the outstanding performer in the Buick line.

All-steel estate wagons are available for the first time this year in the Century and Special series.

Among outstanding styling features in addition to the new panoramic windshield are full rear wheel fender openings and sloping door line on all two-door Rivieras and convertibles, built-in sun visor and rain cove on four-door sedans in the Roadmaster and Super Series, new high crown front fenders which permit the driver to see the right fender at all times, and new instrument panel.

The new V-8 engine in the Special Series, a new combustion chamber design which increases power and economy, new power brakes, new front end suspen-

sion which improves steering and provides better cornering ability, and cowl ventilation are among the top engineering advancements. The sweeperspearing molding, so closely identified with Buick, has been restyled along the lines of last year's Skylark sports convertible. The grille styling also has been refined, with 49 thin bars of chrome enclosed in a chrome frame. The traditional Buick emblem on the front of the hood has been replaced with the word B-U-I-C-K in narrow, delicate letters.

Interior styling has been enhanced by a new, double roll instrument panel, similar to the one on Buick's experimental Wildcat. A new speedometer, unique in the entire industry, is featured on the Roadmaster and Super Series. Speed is indicated by a red line that moves horizontally across a scale graduated from 0 to 120 miles per hour.

New styling also is featured throughout the interior with many new combinations of colors in nylon, broadcloth, corvee and leather.

The new V-8 engine in the Special has the same overall dimensions as the V-8 in the Roadmaster and Super. The Special V-8 has a 264 cubic inch displacement and an 8.1-to-1 compression ratio in Dynaflow-equipped cars. In cars equipped with standard transmission, the compression ratio is 7.5-to-1.

Both Dynaflow and safety power steering continue as standard equipment on the Roadmaster Series and optional on all others. Swing-out door hinges provide up to one and one-half inches more entrance room to the front compartment of all 1954 Buicks.

The new line comes in 15 models with six horsepower ratings and two wheelbases. All Roadmaster and Super models are mounted on a 127-inch wheelbase. Special and Century models are mounted on a 122-inch wheelbase, an increase of one-half an inch.

The Skylark, which has been completely restyled for 1954, is powered by the 200 horsepower Roadmaster engine.

NEW FORD TRUCKS

With TRIPLE ECONOMY!

115-H.P. CLIPPER SIX 130-H.P. POWER KING V-8 138-H.P. POWER KING V-8 152-H.P. CARGO KING V-8 170-H.P. CARGO KING V-8

Now! 5 Ford engines offer the mightiest concentration of power per cubic inch ever in any truck line! V-8 and SIX!

For the power they develop, the engines in the 1954 Ford Truck line have less cubic inch displacement than engines in other-make lines. For example, Ford's 239 cu. in. Power King V-8 develops its 130 h.p. on as much as 43 cu. in. less displacement. Smaller-displacement engines normally need less gas! That's one big reason why Ford concentrated power offers greater economy!

FORD TAKES THE LEAD IN ALL 3 VITAL FACTORS THAT MAKE FOR LOWER COST TRUCKING!

1. Now, only in Ford Trucks—gas-saving, Low-FRICTION, high-compression, overhead-valve, deep-block engines in all truck models! 115- to 170-h.p.!
2. New Driverized Cabs, Master-Guide Power Steering, Power Brakes, Fordomatic Drive for faster control!
3. New greater capacity! New Factory-Built "6-wheelers," gross up to 48% more!
