'54 Auto Show Opens Here Today

A room full of glistening new automobiles with that wonder-ful factory-fresh smell will go on display at 1 o'clock today (Thursday) when the doors swing open for the 1954 O'Neill Auto Show. It is a two-day event-Thursday and Friday, afternoons and evenings-at the American Legion auditorium.

Thousands of persons are expected to file through the auditorium during the course of the show. They'll see their own image in highly polished engine hoods. They'll fondle the steering wheels and gadgets and the dashboard panels, and they'll sample the luxury of the interiors. The 11 cars will make an imposing appearance in the highly-decorated auditorium.

The second annual O'Neill Auto Show is sponsored by The Frontier in cooperation with leading automobile dealers in the area. Makes of cars to be exhibited and the dealers are:

BUICK-A. Marcellus of O'Neill. CADILLAC-Lew White Motor Co., of O'Neill. CHEVROLET-Lew White Motor Co., of O'Neill. DE SOTO-Shierk Motor Co., of O'Neill. FORD-Louhaus Motor Co., of O'Neill. Their Talent Helps Swell Polio Fund

The march of dimes campaign got a \$190-shot-in-the-arm Friday evening in a home talent show presented at the O'Neill public school auditorium. The performers, including adults and students, numbered over one hundred. Mrs. John C. Watson was in charge of arrangements and Charles B. Houser directed the mucic in the pointless musical comedy. The most interesting thing about the production was the nondescript costumes. There

were songs, dances, music by the Municipal band, and some offbeat stuff created by a dishpan rhythm band, which included a handful of businessmen, who were without benefit of practice or sense of rhythm. Robert Kurtz (back row, extreme left) was dressed like a mammoth old woman and several ordinary guys blossomed out in women's clothing.-The Frontier Photos by John H. McCarville.

Rerouting Plan Hits Opposition

Group Will Confer with Governor and District Engineer

For years the state highway department engineers have been surveying possible relocation routes for the coast-to-coast U.S. highway 20, which presently uses O'Neill's mile - long east - west Douglas street, and nothing much has been done about it.

A traffic count a fortnight ago and additional engineering studies conducted recently spurred a group of O'Neill business and professional men into rigorous action this week.

They overflowed the city council chambers Tuesday night at the regular monthly meeting of that body, and a second meeting was held Wednesday night in the Knights of Columbus hall. Wednesday's session was attended by more than one hundred persons.

Judging from the interest shown in these two meetings, it is apparent a large segment of the business interests here are up-in-arms over the engineering plan to bypass the city with U.S. highway 20-275 traffic and with a relocation plan for U.S. highway 281, which is an internation-

al north-south route. The city council assured the delegation in Tuesday's session it would do anything reasonable and within its power to retain the highways along the present routes. Parallel parking and widening of Douglas street were discussed as inducements to the state-federal road authorities in keeping the present routes. U.S. highway 281 enters O'Neill from the south and follows Fourth street to the intersection with Douglas (U.S. highway 20). Fogether they go westward six blocks, then northward to the drive - in theater corner (11/2 miles). At the drive-in theater corner (formerly known as the Danceland corner), route 20 turns west and 281 continues north.

A meeting is scheduled at 1.30 p.m., today (Thursday) between a special committee and J. M. Crook of Ainsworth, who is district highway engineer. Crook will travel with the group and study the unfavorable factors, from an engineering standpoint, presented by the present routes.

Mr. Crook has said the drive - in theater corner and West O'Neill curve are objectionable to the engineers at present for the amount of traffic flowing through the city He pointed out that there were
