Rerouting Plan Hits Opposition

(Continued from page 1) Two fatalities at the drive-in theater corner last fall.

Various bypass surveys have been conducted. The route 20 by-pass, which may be receiving most consideration, is one that angles southeast from the drive-in corner, linking up with 20-275 at a point a short distance east of O'Neill.

A highway 281 bypass survey has been made. The Frontier learned, which would take the traffic off Fourth street by leaving the present road south of town, angling northwest and linking up with the present north-south "shoot" to the union with highway 12 (in Boyd county). This would amount to a West O'Neill routing.

Another plan for 281 is to stay on Fourth street, linking up with the proposed highway 20 off about 1 1/4 miles north from the traffic signal. This would send all 281 traffic through the heart of the city between the public school and St. Mary's academy campuses.

The committee which will meet with Crook today includes James Early, Tony Asimus, Dale Force, Robert Krotter, Phil Cohn, D. E. Seger, Fred Heermann, Paul Beha, Roy Shelhamer, A. P. Juszowski, H. J. Lohaus, Clair Golden, Marvin Johnson and Laurence Haynes, Chamber of Commerce secretary.

Haynes conducted Wednesday night's meeting, a hurry-up affair in behalf of the Chamber. The next regularly scheduled meeting of the Chamber will be at 7 p.m., Monday, February 8, at the M&M cafe.

State Sen. Frank Nelson was present, having just returned from Lincoln where he had conferred with both Gov. Robert Crosby and State Highway Engineer L. N. Ress. Senator Nelson arranged an appointment with the governor for 3 p.m., Tuesday, February 9, for a delegation.

The O'Neill group is considering chartering one or more special busses for the Lincoln junket.

Meanwhile, another meeting of the business and professional group has been called for tonight (Thursday) at the K of C hall, 7:30 o'clock.

West O'Neill business interests turned out en masse for both meetings, and other sections of the city were well represented. Persons with business interests directly affected are greatly disturbed.

Increased gas tax and registration fees coupled with lower construction costs is enabling the highway department to begin work ahead of schedule.

Senator Nelson said he told both Governor Crosby and Engineer Ress if they "have some additional highway money to spend in this area it would make a great many people happy if they would spend the money on U.S. highway 281 north beyond the present plans now in the hopper."

C of C President G. C. DeBacker was the lead-off spokesman in Tuesday's meeting with the city council.

On account of cold weather, the study was not held on the scheduled date and was held with the regular meeting.
