

### Draft Sign-Up Required of All 18-Year-Olds

Young men are required to register for the draft within five days after reaching their 18th birthday, according to John C. Watson, chairman of the local board No. 47 of Holt county.

Registration may be accomplished at any local board office. Men who are away from their homes on their 18th birthday may go to any local board in the area where they are located and register for Selective Service.

All registrants give their proper residence address at the time of registration. This residence address determines the local board that will always have jurisdiction over the registrant's draft classification.

Members of reserve components of the armed forces, including the National Guard, are required to register. Only persons on active duty in the armed forces are not required to register, however, they must register within 30 days following separation from service if born after August 30, 1922, and not previously registered.

Shortly after registration each youth will receive a registration certificate which he is required to have in his personal possession at all times. If the certificate is lost or destroyed, a duplicate may be applied for at the local board office. Failure to comply with the Selective Service registration requirements is a crime under action on the part of the United States Department of Justice.
