Report from Washington

By Congressman Dave Markin Fourth District, Nebraska

To the embarrassment of the Administration and high government officials, it has recently been reported that the dollar volume of American goods licensed by the Commerce Department for shipment to Communist countries increased by more than 800% in the three weeks after President Kennedy's address to the nation on the Berlin situation.

In the three weeks preceding Mr. Kennedy's July 25th talk, American goods totaling \$750,196 were authorized for export to communist countries; however, in the following three weeks, this figure increased to \$6,278,566. This latter figure included: \$2,500,000 of rail equipment for Bulgaria; \$1,700,000 of synthetic rubber for Russia, Poland, Hungary and Czechoslovakia; and \$35,000 of industrial chemicals for Czechoslovakia, Hungary, and East Germany.

It is far past the time when the present Administration and the Commerce Department should realize that we can no longer carry on "business as usual" with these Iron Curtain countries. The Administration can stop the granting of these export licenses, if it wishes to do so. Just last week debate on the Floor of the House on the President's Mutual Security Program brought out the fact we are furnishing aid to communist countries.

Many Members of Congress feel legislation would be in order to halt all trade with the Communist bloc; however, rumors here in Washington indicate that high Government officials feel administrative "discretion" will accomplish the same end without making a statement of national policy. Our officials in the Executive Branch of our Government must realize that we are in a deadly war for our survival with the Soviet Union and the satellite countries making up the Communist bloc, and our actions must coincide with this fact.

The school lunch programs are going to have lots of turkey this year, for the Government recently bought 7,810,000 pounds of U.S. Grade A turkeys to be distributed for use in the school lunch programs. Prices paid ranged from 28.95 cents to 31.95 cents per pound. Next purchase will be August 29th.

It has been announced that 10,000 additional civilian employees have been authorized for the military services by the Defense Department, as follows: Army, 3937 - for expanded training centers, supply depots and ordnance activities; Navy, 4437 - for ships, overhaul and repair facilities at naval air stations; Air Force, 1437 - for air base and maintenance requirements; and 189 for Defense Department operations.

Further increases in civilian manpower ceilings are under consideration - in addition to this increase in the military's non-uniformed ceilings from 1,040,000 to 1,050,000 - which will supplement

the President's request to add 133,000 to the regular military forces and for authority to call up 250,000 reserves.

As this is being written, there is a new wave of opposition here on Capitol Hill to the Peace Corps which has resulted from Director Sargent Shriver's refusal to discharge Charles S. Kamen, a 22-year old Peace Corps volunteer from Miami. The issue of Mr. Kamen's fitness to serve in the Peace Corps has caused considerable controversy here in Washington due to his derisive public remarks during a showing of the film "Operation Abolition" before a Rotary Club group in Miami and his criticism of the Un-American Activities Committee.

Mr. Kamen was accepted as a volunteer for the Peace Corps in July and is now in training for service as a teacher in the Philippines. Some Members of Congress have demanded Mr. Kamen's discharge from the Corps, but Mr. Shriver has stated that Kamen's status will be determined solely on the basis of performance during training, and he would not give in to Congressional demands. Mr. Kamen is also under criticism because he is a member of the Committee for Sane Nuclear Policy and the Emergency Public Integration Committee. The FBI is now completing intensive and loyalty checks on all Peace Corps volunteers.

We have been in session now for almost eight months. Most of the major legislation has been disposed of and all the Members are anxious to get home, including your Congressman. I expect to cover the entire District this fall and will announce a schedule of dates in the near future. It will be good to visit with people who have so much common sense and good judgement.
