Wasson Farm Home Burns

ATKINSON — The recently purchased farm home of Mr. and Mrs. Will Wasson was burned to the ground Monday evening, April 17. Mrs. Wasson said they were not sure what started the blaze, but thought perhaps it started from a spark from a bonfire.

The Wassons were doing repair work on the house before moving in so there was no furniture burned. They had placed some linoleum but were able to remove it from the house. They had been doing some cleaning in the yard in the afternoon and had burned some trash but before they left they thought the fires had been definitely put out.

Because no one was at the place when the blaze started the Wassons are not definite where it started either. Firemen came from Atkinson but high winds and lack of water hampered their fight to control the blaze.
