THE BREWING INDUSTRY HAS SHOULDERS A RESPONSIBILITY

Beer is sold in Nebraska by dealers who have been licensed by the public through duly elected public officials. The brewing industry has nothing to say about their selection but a great deal to say about how they shall operate in the public interest. A continuous educational program informs every retail beer licensee of the requirements for clean, decent and lawful operation.

Retailers appreciate this help and, in turn, are shouldering their responsibility for proper operation. They are striving to adopt the proven practices and newer methods as suggested by the industry. They are anxious to become known as examples of real community helpfulness.
