#### TO THE VOTERS OF HOLT COUNTY

I am taking this opportunity to speak to you, the voters of this county, these few remaining days prior to the Primary election and urging each and everyone of you to vote regardless of party. Good government begins at home and the Primary Election is where each party selects the candidate they feel is most qualified to run in the General Election in No-

I was unable to meet with all of the people of this county so along with urging you to vote this coming August 8th in the Primaries I want to speak personally with you.

I paid for this campaign out of my own pocket. No one has offered to pay for any part of my campaign and had they done so I would have firmly refused such an offer for I would have feared should I receive the Republican Nomination this August 8th and then won the general election in November those who contributed to my campaign would then expect favors and special treatment from the Sheriff's office. It is the duty of every candidate seeking office to keep himself clear of all obligations to any certain person or group of persons if he expects his office to function fairly and smoothly. I have not obligated myself to any one or to any group, not only to protect myself but to protect you, the voting public, who will support me in this Primary Election.

I have a family of three small children. My wife and I have a small business in O'Neill and I have always supported my family honestly in the past and I intend to continue doing so in the future.

In closing this campaign there is one last statement I want to make clear to you, the people of this county who pay the Sheriff his salary, and that is—I sincerely pledge you honest, prompt and sober service should I be fortunate enough to receive the Republican nomination in this primary election and am elected in the general election. I belive the above recommendations I have received from three of my former employers clearly tells you I have conducted my work just that way in the past.

Respectfully yours,
