Fox-Bosn Nuptials In St. Patrick's

Miss Opal Elizabeth Fox, daughter of Mr. and Mrs. Chas. Fox, of O'Neill, became the bride of George Bosn, son of Mr. and Mrs. Simon Bosn, also of O'Neill, at a 9 o'clock ceremony Monday, September 4, in St. Patrick's Catholic church. The double-ring ceremony was performed by Rev. A. A. Onak. The bride chose a gown of white marquisette, fashioned with a sweetheart neckline, fitted bodice and long tapered sleeves which came to a point at the waist. The bouffant skirt fell in a chapel train. Her veil of illusion net was held in place by a braided coronet of the same material. She carried an arm bouquet of white roses, and a white rosary a gift of the bridegroom.

Miss Ruby Fox was her sister's maid-of-honor. She wore an aqua gown with matching veil. Her bouquet was pink roses.

Ray Bosn was bestman. Both he and the bridegroom wore dark business suits with white carnation boutonnieres.

A wedding breakfast was held at the Tom-Tom cafe immediately following the ceremony for the couple, their attendants, their parents and Rev. Onak.

A reception was held at 1 o'clock at the home of the bride's parents. The bride's table was decorated with a 3-tier wedding cake and cut flowers.

Following a short wedding trip, they will reside in O'Neill. Mr. Bosn is employed by the American Gear company.

TIME OUT!

When accident taps a worker on the shoulder and calls "Time Out," it may be for a day, a week, a month—or forever!

Every year time runs out for some 16,000 workers, killed in action on their jobs. 80,000 are so severely injured that they may never work again. Two million are injured in greater or lesser degree. The cost to workers and industry—\$4,500,000,000 annually. Over eighteen and a half million dollars every working day.

When you're inclined to be a bit careless, a little too tired to be cautious, remember, every 32 minutes some worker gets "tapped for life," every 16 seconds one is injured, temporarily or permanently. Know your job, be alert while on it. Vehicle accidents are the No. 1 killers and cause most permanent disabilities. Machinery is the principal source for partially disabling injuries, while the handling of objects knocks out more workers temporarily. Falls are occurring continuously, in all kinds of work, and cause anything from a slight injury to death.

So watch yourself at work. Think safely—use your head to save your job—maybe your life!
