PULLING TOGETHER

... FOR THE
BENEFIT OF
ALL NEBRASKA

★ Pulling together is the way the really worthwhile things which make Nebraska a great state have been accomplished... through friendly cooperation that breeds progress and mutual advancement.

Typical of this Nebraska teamwork is the state-wide public power program—a product of far-sighted Nebraskans—which has helped so vitally to bring progress and opportunity to all Nebraska.

Playing a major role in this program is Consumers Public Power District, your own state-wide electric system, created for the primary purpose of bringing greater electrical advantages and benefits to Nebraska communities. While distinctly separate from the other power agencies operating in the state, and entirely self-supporting, Consumers Public Power District works hand-in-hand with power generating and irrigation districts and Rural Electrification Districts to make possible maximum electrical benefits and progress on the farm, in the home and in industry throughout Nebraska.

And, while constantly improving its facilities to better serve its users, Consumers, along with the other power agencies, is soundly planning and building to keep pace with the ever-increasing electrical requirements of the future.
