- Several Sets of
Good Used TRACTOR TIRES
Various Sizes

Statement by the Auctioneers:

¶ This is the third sale of this type we have auctioned for Mr. Lloyd Collins. It is our considered opinion that this will be a rare opportunity to buy machinery at your own price.

¶ Fresh in the minds of all of us is the difficulty experienced in buying machinery and equipment as a result of World War II. They were drawing numbers out of a hat to determine who would get that lone tractor or picker when it came in. There has been (and still is) labor unrest in the farm implement and farm machinery manufacturing industry.

¶ Why not plan to be in O'Neill early on the day of this sale . . . look over the lineup . . . try 'em out if you wish . . . and come prepared to buy at your own price!

¶ According to Mr. Collins and to the very best of our knowledge, every purchaser in the two previous auctions was 100 percent satisfied. Of the hundreds of items sold only one (and it was a small item) was returned to Mr. Collins because it wasn't satisfactory. This is not an ordinary machinery auction — because the LLOYD COLLINS firm stands behind each item exactly as it is represented at time of sale.

Lloyd Collins Implements O'NEILL, NEBR.
