**Fix Tax Valuation of Purebred Calves, \$35**  
By a vote of 44-21 the Nebraska County Assessors' association has adopted a schedule for livestock which included these assessment values:  
Purebred cattle: Calves six months \$35, yearlings six months to eight months \$85, steers 18 to 30 months \$110, milk cows \$160, stock cows \$160, bulls \$200 and up.  
Grade cattle: Calves under six months \$25; yearlings \$75, steers \$110, heifers \$100, steers over 30 months \$140, stock cattle \$120, milk cows \$140, bulls \$170, cattle on feed 60 days 75 percent of market value.  
Other stock: Horses and mules \$15, saddle horses \$50 and up, stallions \$50 and up, hogs 75 percent of market value, sheep \$5.  
The assessors decided to assess power lines on a valuation of \$125 a mile and \$25 for each transformer.  
Fred Arnholt, of Thomas county, was elected association president.  
Equalization of salaries for county assessors in counties of comparable size was endorsed by the association at the annual meeting held last week in Lincoln. William F. ("Bill") Weiso, newly-elected Holt assessor, was present.  
They also gave their approval to social security rights for state, county and city employees and to extension of the term of the state tax commissioner from two to six-years.  
The tax commissioner is appointed under present law by the governor, who himself serves a two-year term, and on the same two-year basis.  
This action followed a talk by Executive Director Albert W. Noonan, of Chicago, Ill., of the National Association of Assessing Officers, who said the public doesn't pay enough attention to assessors.  
Noonan said this is proved by the fact that the assessors are the most underpaid of any responsible county official. But, he added, in most states there is a growing recognition of the importance of competent assessors.
