Beef Ceilings Go Into Effect

Retail butchers are required to post by June 4 the new ceiling prices for all beef cuts although the prices were effective Monday, May 14.

Beef prices under ceilings established for May 14 will remain in effect until July 31, when the OPS will require a reduction of 4 1/2 percent in prices paid for live cattle. Another similar reduction of 4 1/2 percent is to become effective October 1 also at the producer level.

These step-by-step reductions should result in a lowering of the retail price of beef by 10 percent by fall, the OPS says. Reductions, however, will depend on style and type of beef cuts and their grades. Ceilings becoming effective next week will place prices at about the level prevailing last February.

The OPS regulations relating to beef are designed to control prices slaughterers pay for cattle, prices charged by wholesalers, as well as charges for various cuts to be paid by the ultimate consumer.
