CPPD Accountant Gets Promotion

C. V. Sullivan, present O'Neill district accountant for Consumers Public Power district, will transfer to Lincoln November 16 in preparation for assuming the duties of Lincoln district accountant.

Mr. Sullivan's promotion was announced relative to the forthcoming retirement of George Schaberg, present Lincoln district accountant, at the end of this year.

Employed by Interstate Power company in 1926, Mr. Sullivan has worked in the O'Neill accounting department in various positions since that time. He is also a veteran of World War II, having served with the army from 1942 until 1946, a portion of that time with the Seventh army in Europe. He is married. His mother is Mrs. Agnes E. Sullivan, former postmaster, and his father was the late M. R. Sullivan.

Harold Peterson, longtime chief clerk with Consumers in Lincoln, will be promoted to O'Neill district accountant to replace Sullivan.

Other changes effecting the O'Neill district will be the transfer of Gale Dierberger, Beatrice storekeeper, to the position of O'Neill storekeeper, following the resignation of Ed Tharnish, who will engage in farming.

WE BEG YOUR PARDON

A front page story in the October 4 issue of The Frontier concerning Holt County Treasurer J. Ed Hancock's answer to a law suit, brought by Charley W. Petersen, Atkinson rancher, stated that Petersen had paid all of his current real estate and personal taxes except \$943.98. This amount represents taxes on Petersen's property in school district 231 from the 4-mill blanket tax levy, adopted by the 1949 legislature. The story erred in that Petersen volunteered to pay all taxes in his property in rural school district 231, except the 4-mill blanket tax, but Hancock refused to accept a partial payment. Petersen has taken the matter to court to test the validity of the blanket tax law, seeking to restrain the treasurer from making the 4-mill collection.

...Yours with a JOHN DEERE No. 226 Corn Picker

BIGGER DAILY CAPACITY
EASIER HANDLING
LOWER PICKING COSTS

The John Deere No. 226 Two-Row Mounted Corn Picker is the practical application of self-propelled corn picking. Its corn-saving ability, tremendous capacity, easier handling, and rugged construction speed harvests and cut costs for many years.

The No. 226 is a straight-through picker from the long, gently-sloping gatherers, low down gatherer chains, and ground-hugging snapping rolls, through the big-capacity husking rolls and wagon elevator. This simple design assures greater corn saving and lower upkeep costs.

The John Deere No. 226 Picker is easy-on... easy-off. There's plenty of strength without excess weight, making it an easy load on your tractor. See us for details.
