### Your Telephone Has Passed the Most Rigid Tests of Science

The materials used to make your telephone are frozen, soaked and steamed. These rigid tests give assurance that it will serve you best.

Almost fifty years of patient study have made you a telephone which is complete in itself and the best science can design. Appliances of any kind which are attached to the telephone do not improve but impair your service.

Devices supposed to eliminate noise, make secret conversation possible, destroy germs, and the like, should not be attached to your telephone.

**Railway Commissioner**

My duties as Chairman of the Railway Commission require my constant attention, therefore I cannot make a personal campaign. I believe you will appreciate the position I am placed in. No prudent business man would discharge an experienced faithful servant and give the position to an inexperienced employee, when the salary that they pay is the same in either instance. The service I have rendered as State Senator, State Fire Marshal and Railway Commissioner is a guaranty of the service I will render if re-elected to the Commission. For more than forty years I have been a farmer, stockman, merchant and banker in Nebraska. I will appreciate any assistance you can render in my campaign.

CHARLES A. RANDALL.

## First at the get-away First on the straight-away

No car in the Victory price class can match the all around brilliance of Victory performance.

The Victory is first at the get-away and first on the straight-away—faster on the hills, faster in traffic—smoother on rough roads.

And accelerates as no other car at the price has EVER done: 5 to 25 miles in 7¼ seconds! 10 to 45 miles in 13½ seconds!

The public discovered all this even as the stop watch proved it.

More power per pound of car weight made it possible. Rugged Dodge construction made it practical. And the Victory's unusual design made it SAFE.

For the Victory gravity center is lower and there is no body overhang . . . The chassis frame is the full width of the body—and the body sills are eliminated.

Exceptional charm of line and more headroom and seat width are further vital results of this unique construction.

Drive the car today and make your own comparisons!
