"AIN'T NATURE WONDERFUL."

Will someone please page L. C. Peters? The following article appeared in last week's Inman Leader: You have read about the flying fish and the barking ducks, but right now Eugene E. Clark, rural carrier on Route No. 1 out of Inman, reports several set-toos with a fighting pheasant. These game birds are becoming quite numerous in this section and while it is against the law to kill them considerable difficulty is being experienced and the United States mail is being delayed on the account of the fighting ability of one certain male pheasant who persisted in occupying all the road and at numerous times Gene is compelled to detour in order to keep from running over the bird. Drastic measures are being formed and the matter will be brought to the attention of the federal government to see if some relief can be secured to prevent the mails from being delayed.
