

## YES

Dodge Brothers Standard Six is the fastest car, with the fastest pick-up, under a thousand dollars.

## HOWEVER

That is only HALF the story. The IMPORTANT point is that this exceptional speed is made practical by Dodge ruggedness of chassis and body construction.

## OTHERS

Might succeed in building a car at this price with equal SPEED, but to do so successfully they would also have to build a car with equal STURDINESS.

## AND

That is where Dodge Brothers, with years of experience in building a dependable low-cost product, are years ahead of the field.

## YOU

Can buy the Standard Six knowing that it is not only the fastest car in its class but the sturdiest—and the one is every bit as important as the other.

### BRICK BATS.

The other day the boss told us that it was about time that our customers were getting a little rest and that as we had done nothing much for fifty consecutive weeks he figured that it would be a good idea for us to take a little vacation so for the next few days we are going to be mighty busy. Owing to the surplus of morals being handed out by our fevered politicians at this time ours will not be missed, so instead of morals we will dispense physiology, topography, morals and dispositions of the countries and peoples we expect to see. In our spare time we are planning on organizing a new political party with a platform containing one plank, viz., that with the exception of golfers, fishermen and hunters, no one should have to get up before 8 a. m., excepting on holidays, leaving the above exceptions optional. There, folks, is a real platform, popular with one and all, and it deserves support. Having packed our other shirt, we will be on our way to the town where they claim to know beans. Will tell you more about it next week. Don't forget about the new Slumber Party. If we can get on the ticket we will need as many votes as each of you can manage.—Brick Smith.

### Walter Donaldson Introduces American Theme as Music for "Love"

New York City.—There's been a big battle on Broadway between the contenders for American music and those for foreign classics. And the Americans have won with colors flying.

It all started because most motion pictures have been cued with excerpts from classics and the public wants American jazz. Now, the far sighted producer is themeing his picture in American rhythm.

"Every country on the face of the earth runs our motion pictures and plays our music, yet we have hesitated to combine these two outstanding arts. It makes no difference what the story of the picture or how foreign its flavor, all of these qualities can be preserved and the music still truly American—if done in our inimitable rhythm.

"Our popular songs are our folk songs," he further explains, "and if musical productions have been supplanted by 'movies' in many towns, these motion pictures certainly should 'carry over' and bring the expected songs to the small communities.

"Here we have a picture that
