

Strawberries at their best

You will learn how good strawberries really can be when you eat them with **Shredded Wheat**. For breakfast, lunch or supper this food combination is the best treat of the season. The distinctive flavor of crisp, toasted whole wheat blends wonderfully with the milk and the fruit. It's an easily digested food combination too. Shredded Wheat is nothing but selected whole wheat, shredded and thoroughly baked. And with twelve full size biscuits in every package it's an economical food as well.

Made by The Shredded Wheat Company

WALTER TULLIS.

Was born in Benton County, Missouri, on the 21st day of April, 1871. He died July 10th, 1928, aged 57 years, 2 months and 19 days. In the year 1882 he moved with his parents to Holt County, Nebraska. From there he went to Boyd county near Butte, Nebraska, in the year 1894.

In 1896 he married Alice Brewer. Of this union three children were born, a daughter, who died in infancy, and two sons, Roscoe R. of New York City, and Byron W. of Lincoln, Nebraska, who were at his bedside when he passed away.

There are left to mourn his loss, his wife, Alice, two sons, Roscoe and Byron, one brother, John Tullis, of Gooding, Idaho, and one sister, Mrs. Ida Trullinger, of Pueblo, Colorado. Walter Tullis joined the order of Odd Fellows in the year 1911. He united with the Lynch Presbyterian church in 1917 and was one of its efficient trustees until the time of his death. Walter Tullis was a true and devoted husband and a loving father. Always faithful to the highest ideals of marriage and parenthood, his cheerful and gracious nature will sorely be missed by his loved ones. He was dependable, honest and industrious, a lover of his friends, who were legion, and faithful to all who trusted in him.

The town has lost a good citizen, the Odd Fellows a faithful member and his many friends a good, loyal, wholehearted neighbor and friend. He has gone to his reward. He faced death fearlessly, not fearing the future for his faith was strong in his Saviour.

On July 10th the summons from his Creator found him prepared and ready for the journey to the Great Beyond. His many friends will mourn for him for many days.

The funeral services were conducted by his old friend, the Reverend George Longstaff, of Hansen, Nebraska. Private services were held at 1:30 in

the home. From there the remains were taken to the I. O. O. F. Hall under an honorary escort of Odd Fellows, who assisted in that service. The pall bearers were all close and intimate friends of the deceased. A selected quartette furnished the music.

Burial was beside his mother in the family lot in the Mineola cemetery in Holt county. The floral offerings were beautiful and numerous, coming from various states. Many of the old friends and neighbors awaited the mourners and interment at the cemetery in Mineola.

CARD OF THANKS.

We wish at this time to express our sincerest thanks and appreciation for the offers of help and the many kindnesses extended to us by all our friends during the illness and death of our husband and father. Especially, to the Order of Odd Fellows, for all they have done for our loved one and for us, and for all the many beautiful floral pieces. May God in His goodness, shower friends on you in your time of sorrow as He has done for us. Sincerely, Mrs. Walter Tullis, Roscoe R. Tullis, Byron W. Tullis.

PHILLIP BAUSCH.

Phillip Bausch, aged sixty-eight years, died while at work in his blacksmith shop in Atkinson, Nebraska, last Tuesday afternoon. He was visiting with a customer while operating the forge when he suddenly expired.

Mr. Bausch was one of the early settlers of Holt county and resided on the Eagle Creek northwest of O'Neill for a number of years before moving to Atkinson where he engaged in the blacksmithing business.

He leaves a father, Phillip Bausch, Sr., at Atalissa, Iowa; three sisters,

Mrs. Wm. Evans, of near Atkinson; Mrs. Elizabeth Wenzl, of Steinauer, Nebraska; Mrs. Catherine Kirsch, of Muscatine, Iowa; five brothers, Adolph, Atalissa, Iowa; Stephen, of Catalpa; Henry and Fred, of Phoenix, and Charles of this city.

Phillip Bausch, Sr., the father of the deceased, is 98 years of age and resides with his son, Adolph, at Atalissa, Iowa, and was one of the very early settlers of this county.

IN MEMORIAM.

The Sisters of Saint Mary's Academy of this city mourn the loss of one of their Pioneer Members—Sister Mary Euphrasia Edelbrock. Sister Euphrasia was born at Havixbeck, Germany, on May 5, 1842. In 1860 she joined the Franciscan Sisterhood. Her superiors soon detected her great executive ability and therefore placed her at the head of a large orphanage in Elberfeld. Here she labored faithfully and successfully till the religious persecution under Bismarck necessitated Sister Euphrasia to seek another field of activity with her companions. In 1872, she came to America and was given a cordial welcome by Rt. Rev. S. H. Rosecrans, D. D., Bishop of Columbus, Ohio. With her companions she founded Saint Vincent's Orphanage for the poor destitute of that diocese. She labored indefatigably for this institution and managed so well that today the name "Mother Euphrasia" is still vivid in the memory of the citizens of Columbus, Ohio.

In 1907 ill health caused her transfer to Saint Francis Mission, South Dakota. In January, 1916, the buildings of this Mission were destroyed by fire and Sister Euphrasia came to O'Neill. She was beloved and revered by all her sisters and friends here. A serious injury reported a few weeks ago caused her death on Sunday, July 15. R. I. P.

SOME MACHINE.

The harassed-looking man was being shown over a factory. "That machine," said the guide, "does the work of thirty men." "At last," he said, "I have seen what my wife should have married."

THE "SAVE-A-LIFE" CAMPAIGN STARTS AUG. 1

In an effort to reduce automobile accidents and eliminate loss of life caused by motor vehicles in Nebraska a state wide "Save-A-Life" campaign will be conducted from August 1 to August 25, it was announced today by R. L. Cochran, Secretary and State Engineer, Department of Public Works.

The campaign is made official for the state by a proclamation issued by Governor Adam McMullen at the Capitol this morning. The proclamation calls upon all municipal authorities, motor organizations and civic and commercial bodies to co-operate in the "Save-A-Life" movement.

The purpose of the campaign is to establish a regular annual period of free mechanical inspection of all motor vehicle licensed to operate in this state. New York, Massachusetts and other states have already conducted "Save-A-Life" campaigns and several other states have announced their intention of doing so in the near future.

Service stations and garages in every community in the state will be appointed to serve as official inspection stations from August 1 to 25 inclusive. During this period every motor vehicle owner in Nebraska is requested to drive or send his car or truck to one of these official inspection stations to be examined regarding its mechanical condition. This inspection will be made entirely without charge at official garages and service stations, and the motor vehicle owner is free to choose any official inspection station he desires.

Official windshield stickers will be issued in the name of the State Motor Vehicle authorities and one of these will be placed on every motor vehicle that passes inspection as being in good mechanical condition in so far as its safety factors are concerned. Cars that reveal mechanical defects which render them unsafe will have to be put in good order before the official state sticker will be issued to the owner.

"The proposed 'Save-A-Life' inspection of automobiles will be devoted chiefly to the brakes, horns, lights steering mechanism, windshield wipers and mirrors," said Secretary Cochran in announcing the campaign to reduce automobile accidents and prevent fatalities in the state. "These are the items most likely to get out of order on the average automobile and statistics show that they are the most frequent causes of accidents."

"We want no unsafe automobiles on the roads in Nebraska and co-operation of every citizen and motorist in getting his car inspected free of charge between August 1 and 25 will go a long way toward saving lives and preventing accidents."

"It is perfectly obvious that the best driver in the world cannot stop a car that has no brakes, or warn pedestrians and other cars if the horn is not working. Inspection of drivers is not sufficient; the vehicle they drive must also be in safe condition to prevent injury to themselves and others."

"Fifty-nine per cent of deaths from automobile accidents in the United States are caused by defects in the mechanical condition of the automobile itself. A modern automobile is good for tens of thousands of miles of service and it is entirely safe in the hands of a careful driver, but being a piece of machinery it requires regular mechanical inspection at least once a year to keep it in good running order and to operate it economically and safely."

Governor McMullen's proclamation calls upon the officials of every community, and various civic, commercial and industrial organizations to

lend their wholehearted support to the statewide movement for greater motor vehicle safety. The text of the proclamation follows:

A Proclamation.

Whereas, experience has demonstrated that a considerable portion of the accidents involving motor vehicles is directly chargeable to defective mechanism or equipment; and

Whereas, these accidents leave in their wake untold suffering and loss of human life and limb, entirely avoidable from wanton waste of and damage to property; and

Whereas, it is believed that careful and frequent inspection of this mechanism and equipment will eliminate most, if not all, accidents chargeable to such defects; and

Whereas, the automobile industry and all garages and service stations have arranged for such inspection, free of charge to include examination of brakes, horn, lights, steering mechanism and mirrors, during the period of August 1 to August 25, 1928;

Now, therefore, I, Adam McMullen, Governor of the State of Nebraska, do proclaim the period beginning August 1 to August 25, 1928, as

SAVE-A-LIFE PERIOD

and I earnestly urge that all owners of motor vehicles avail themselves of this opportunity of free inspection of such vehicles and the elimination of all defects.

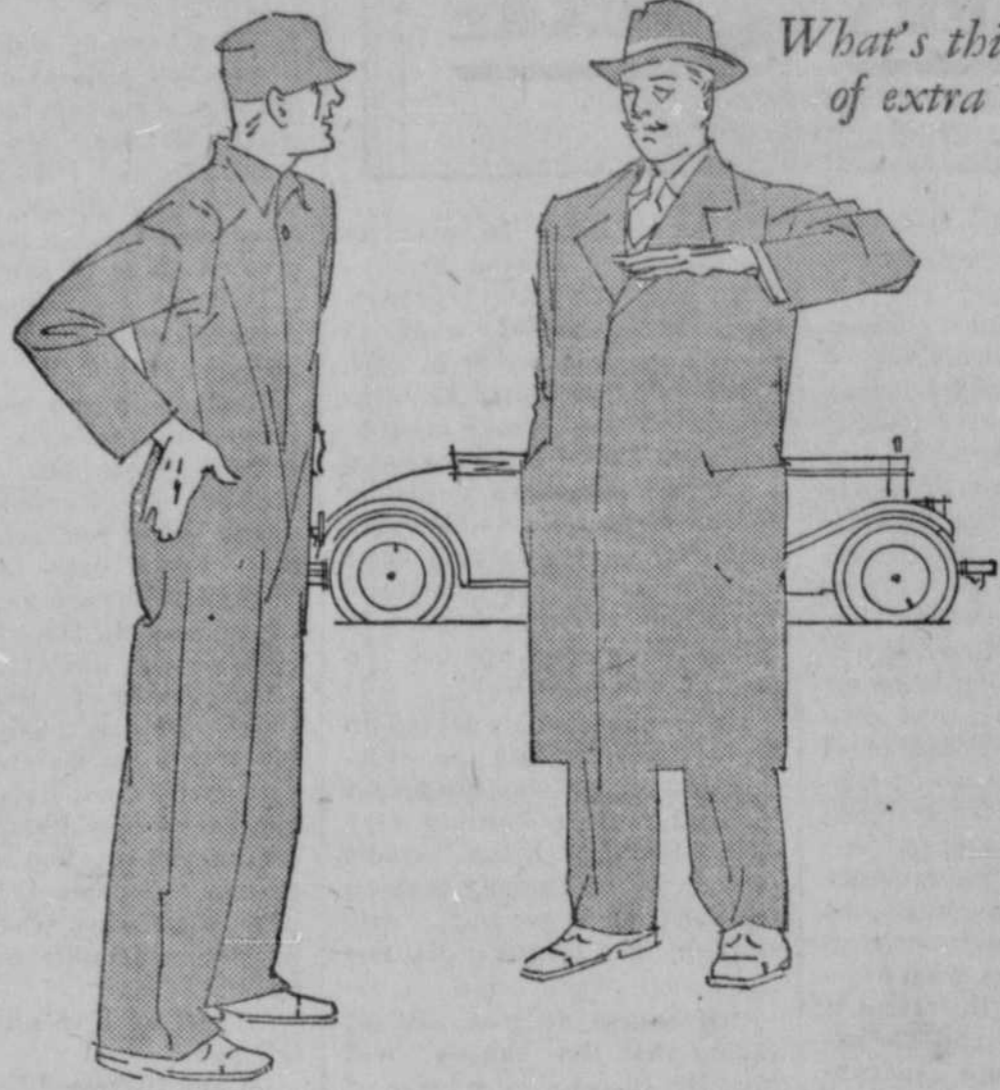

I respectfully commend to the Mayor of each city, town and village that they make similar proclamation to their townspeople, that President of Chambers of Commerce, luncheon and motor clubs, and civic organizations stress the significance of this safety movement; and I further recommend the subject of public safety as an appropriate theme for clergymen and public speakers during the public safety period, to the end that greater success will attend the effort to reduce car accident hazard.

IN WITNESS WHEREOF, I have hereunto set my hand and caused to be affixed the Great Seal of the State of Nebraska.

(SEAL)
Done at Lincoln, this 16th day of July, A. D. 1928.

ADAM McMULLEN,
Governor.

By the Governor:
FRANK MARSH,
Secretary of State.

What's this talk of extra cylinders?

"I don't quite get you, Mr. Motor Wise, you and your multi-cylinder action."

"Smooth and smart, that's it; comes from using positive power Kant-Nock gasoline. Just like adding more cylinders."

"POSITIVE

POWER"

Like stepping on a tiger's tail, that's the way your engine responds to Kant-Nock gasoline. Puts new life into any motor, erases the last trace of "ping" or knock in the high compression type. This good gasoline burns smoothly, evenly and completely. Supreme in anti-knock quality, it approximates aviation gasoline specifications. An outstanding gasoline for high compression motors. Use it the year round.

Lips One Inch from Mouthpiece Enables Others to Hear You Best

Talking directly into the mouthpiece with your lips about one inch away enables the person at the other end of the line to hear your voice clearly.

Every additional inch the lips are away from the mouthpiece makes it increasingly difficult for the person with whom you are talking to hear you.

The value of telephone service depends to a considerable extent on how it is used.
