

**NURSES know**, and doctors have declared there's *nothing* quite like Bayer Aspirin for all sorts of aches and pains, but be sure it is genuine Bayer; that name must be on the package, and on every tablet. Bayer is genuine, and the word genuine—in red—is on every box. You can't go wrong if you will just look at the box:

Aspirin is the trade mark of Bayer Manufacture of Monopacetic Acid Ester of Salicylic Acid

**Cecile's Sharp Wit**

Here's the latest on Cecile Evans, Hollywood's sharpest wit. The story, told by James R. Quirk in Photoplay Magazine, goes that she drove her roadster into the temporary garage of a four-thousand-dollar-a-week man on the First National lot. Along came the Rolls-Royce.

"What do you mean by stalling your contraption in my garage?" yelled the justly irate F. T. A. W. M.  
"I'm sorry," apologized Cecile. "I saw one of your pictures last night and I thought you were through here."

**No Wood in This House**

A house without a single sliver of wood in its construction is being built in Gary, Ind., for the president of a local steel company. The framework is made of angle-irons with a complete system of diagonal bracing. Both bolting and electric welding is used to fasten the steel together. Concrete is used in the foundation and for the floors, while stairs, sills and interior trim are all steel.

**Death to Cats of Rome**

The mayor of Rome, Italy, has issued a decree which puts an absolute ban on all cats in the interest of public health. The excuse that they keep down the number of rats and mice is met with the statement that there are much more effective ways of doing this than by the use of cats.

**Farmers to Use Planes**

Many owners of large farms in South Africa are considering the use of airplanes for trips to the city. Farms in that country are enormous in size, as a rule, and planes could also be employed in making trips of inspection. Yards are so large that there is ample space for landing at the owner's front door.

**Fooling Evil Spirits**

Among semi-civilized races interchange of dress is a serious business and is practiced regularly. In many of the numerous islands in Australasia, whenever a man is troubled with an evil spirit he leaves his home secretly, dons a woman's dress, assumes a female voice and pretends to be other than he really is.

**Not Today**

Little Betsy was gazing out of the window one afternoon during a recent severe storm. She saw the sun become overshadowed by heavy clouds and the day grow almost dark.  
"My, there won't be any daylight savin' today," she said sadly.

Don't judge a man's bravery by his conversation.

Even on the downward path some people are backsliders.

**Japan Is Good Market For Noisy Music, Says**

Berlin. (AP)—Japan knows much more about contemporaneous German composers, especially those with a penchant for cacophony, than do the Germans themselves. This unusual statement is made by Director H. Gebhard of the German Gramophone company. "Our best market for ultra-modern offerings is Japan," he says. "In Germany, Paul Hindemith, Arnold Schoenberg, Ernst Krenek, Alban Berg, or Kurt Weill records have but moderate sales; in Japan we sell them by the thousand."

"I explain it this way: the Japanese is keen on everything modern, he wants to be absolutely up-to-date. Now, he reads about the new school of musical composition, and immediately orders records illustrating it. As his ear is differently attuned from ours, he has none of the inhibitions to overcome which hinder the European from accepting new combinations of sounds and new conceptions of harmony easily. "The average Japanese consequently knows the German modernists much better than do the Germans themselves."

**Germans Have Antidote For Air Sickness, Claim**

Berlin. (AP)—Air sickness, cousin to seasickness, need no longer haunt the dreams of the airplane passenger starting from Europe's largest airdrome, Tempelhof Field, Berlin.

The Tempelhof officials have installed an apparatus for inhaling anti-air-sickness fumes, and are convinced that it is a success. They feel confident that other airdromes of the Luftthansa (German Federal Airways corporation) will emulate the example of the Berlin flying field.

Any passenger who fears that he may become airsick, may inhale the antidote, which consists in the main of oxygen gas and cinnamon. The mixture has a quieting effect "upon the nerves of the diaphragm."

Air passengers who arrived at Tempelhof quite ill from air sickness were brought back to normal conditions within less than five minutes through the inhalation of the antidote. It is planned in due time to have an inhalation apparatus installed on every passenger plane with tubes running to every seat.

**Soldiers Assault Phone Exchange After Trouble**

Tientsin. (AP)—Verbal abuse of telephone "centrals" when connections are not forthcoming is for Gen. Li Yun-chang an inadequate way to express exasperation.

This warlord, who commands the 35th division of Gen. Chu Yu-pu's ill-disciplined Chihli army, had trouble getting a connection through the Tientsin headoffice exchange. After exhausting a stock of expletives learned in the rugged Shantung mountains, General Li sent soldiers of his bodyguard to the exchange to show that he was not to be trifled with. The soldiers assaulted several Chinese operators, smashed equipment and interrupted service for more than three hours of a busy afternoon.

The exchange is in Chinese territory just outside the boundary of the Italian concession, but it serves a large portion of the foreign areas. The Chinese operators could not be persuaded to return to their posts until the company's foreign engineers arrived, took charge and made the necessary repairs. Dictator Chang Tso-lin at Peking has ordered an investigation of the affair.

**Build Heroes' Mound Of Earth from Graves**

Budapest, Hungary. (AP)—The government has invited all Hungarian communists to dispatch to Budapest half a kilo of earth taken from the graves of heroes and from sites of great national happenings. These handfuls of earth will be used to build up a "heroes mound" in the shape of a pyramid outside Budapest, from the top of which the national flag will wave.

**Inevitable Reaction.**

Elmer Davis, in Life. The late readjustment, as the devout call it, of the stock market has brought some comfort to us old-fashioned conservatives who were brought up on the multiplication table and kindred outworn superstitions. For a year past our friends who were getting rich in Radio and General Motors have been assuring us (as they assured us in 1919, and as investors in Florida real estate assured us in 1925) that modern conditions had created a new heaven and a new earth, more particularly a new heaven, in which prices would keep on rising forever and we could all get rich by unloading our holdings on each other. Well, once more it has been proved that all that goes up must come down; and that whatever may have happened to the Ten Commandments of late years, the elementary laws of mathematics are yet to be disproved.

There is little romance and idealism in the statement that two and two make four; but as a major premise it is likely to prove a little more satisfactory and workable than the optimistic theory, lately current, that two and two make 27, or as much more as the price at which you bought the stock may require.

**A Memento.**

From Tit-Bits London. First Housewife—I suppose you carry a memento of some sort in this locket of yours?  
Second Ditty—Yes, it is a lock of my husband's hair.  
"But your husband is still alive!"  
"Yes, but his hair is gone."

**In Doubt.**

"I don't know," responded Etioise.  
"Don't know?"  
"In the last chapter they are married and begin hunting for an apartment."

The above picture shows a building after the elements had finished with it. (International Newsreel)

**Peggy Joyce's Sixth**

Just as soon as Lord Northesk (below) obtains his divorce from Lady Jessica Brown Northesk, former Follies beauty, he is going to trip to the altar for a second time with Peggy Hopkins Joyce. But it will be pretty Peggy's sixth saunter down the aisle to Mr. Mendelssohn's famous composition. The happy pair are now enjoying the bathing at Deauville. (International Newsreel)
