SUN-MON-TUE, JUNE 28-29-30
So take off the kid gloves and put on the claws. Now it's every man for himself—and the other guy's job—and the other guy's wife.
"THE YOUNG PHILADELPHIANS"
Co-starring Barbara Rush, Alexis Smith, Brian Keith, Diane Brewster, Billie Burke, John Williams. "I want you to meet 'The Young Philadelphians'."
When I first saw this new motion picture I was impressed with its fast-moving and exciting story of a young man growing up in the social and business worlds of the city of Philadelphia. And then I suddenly realized something special was happening.
The young people on the screen—the law student, the debutante, the immigrant boy, the good-time girl, the Korean vet, the murder suspect and all the rest—do not belong to any one town or city in America. Young people like them are living right here—daily facing the same decisions about morals and marriage, fears, and prejudices, jobs and ethics, parents and friends. You may recognize yourselves when you see this picture. That's why I think it rates special mention. That's why I think you'll all enjoy meeting "The Young Philadelphians".
The Manager.
Adm.: Adults 50c, Children 15c. All children unless in arms must have tickets. Matinee Sun., 2:30.

You get the BIG comfort dividends in your 59 FORD...

NO SQUIRM Some cars' door openings aren't shaped to fit people! So you have to squirm and wriggle to get in and out. In a Ford, the door openings are contoured to fit you! You get in and out of a Ford with greater ease and comfort. The girls really like Ford's doors... for more graceful entries and exits.

NO SQUEEZE To gain a low roof line, some cars end up with higher front "humps" and thin, padded rear seats... a combination that's mighty rough on the middleman. Ford's have useable seating space for six big people. The driveshaft tunnel is lower and rear seats are deeply cushioned all the way across. This means more comfort for all passengers... especially for the man in the middle.

NO SQUASH The squeezed-down, stumpy roofs of some cars aren't comfortable even for bare-headed riders. And they don't keep out excessive sunlight and glare. See how much more head room Ford has. Even big six-footers sit up straight without touching the roof. And Ford's big roof protects all passengers, in both front and rear seats, against the discomforts of excessive glare and heat from the sun.

Greater comfort is only the beginning of the dividends you get in a Ford. You get the World's Most Beautifully Proportioned Car. You get a big dividend in Ford prices... the lowest of the best-selling three. And you get saving dividends that cut costs every mile you drive. See and Action Test a new Ford at your Ford Dealer's. See how you can go finer... with more comfort... for less... in a new Ford!
