Chambers Man Comments On School Problem

Dear Editor, This letter on the school question was intended for last week's paper...

Last week's commentaries on the NSIA meeting at the Legion hall were interesting. The editorials and news accounts were commendable...

I was sorry that there was no account in the paper of the school consolidation meeting in Chambers on the night of Friday, March 4.

My original letter dealt with that meeting attended by approximately 250 patrons of school districts in this south Holt county area.

By use of charts and maps Mr. Weller ably presented the information needed in drawing up a consolidation plan...

Mr. Weller then explained that a modest school levy would finance an expanded school system in Chambers...

Mrs. Weller then explained that a modest school levy would finance an expanded school system in Chambers and systematically retire indebtedness incurred in a building program.

Mrs. Weller then explained that a modest school levy would finance an expanded school system in Chambers and systematically retire indebtedness incurred in a building program.
