Prairieland Talk

"Vote for Williams"

By ROMAINE SAUNDERS, 4110 South 51st St., Lincoln 6, Nebr

Filings are all in. Prairieland patriots seeking a place on the November election await now the results of the spring primary. That one time barefoot prairie rose here in Holt county, now a woman of

note in our Capital City, Fern Hubbard Orme a state senator is a candidate again and has a group of four Lincoln men seeking the nomination. The names of the two getting the most votes primary day go on the November ballot. Senator Orme will be one of them. North Nebraska Republicans we trust will vote for Senator Williams party nomination for governor.

He is an accomplished gentleman, a stalwart son of the prairies and would fill the office of state evecutive with an eye to the welfare of all citizens.

St. Patrick's Day. I wonder if the "wearing of the green" was in evidence this year in O'Neill as it was 60, 70, or more years ago. I had no green ribbon to pin on the 17th but the date has other significance to me, being the birthday of both my father 150 pairs of shoes in his store on lower 4th street city and more are coming, tryand my youngest son.

Pleasure-U seek it all in the dance hall, before the movie screen. At Thy right hand, says the gifted psalmist, there are pleasures for ever more. I reach out for that Hand to lead.

A couple at Pender, get \$11,000 from the estate of their son, who had been missing from the parental home some years, a court decree out as Casper, Wyo., pronouncing the son dead and awarding the estate to his Nebraska parents.

Leap Year-at the age of twenty and nine have you lassoed him yet, Miss Prairie Maid? Or does this gloomy snow blown long winter freeze up sentiments of romance. Spring and summer days are somewhere down the Leap Year lane when flowers will bloom and maiden's hearts throb again with love and song. Come, you young gents around the old town, hear the song of Mary Belle, take her by the hand and lead her to the altar, where two souls have but a single thought and two hearts are made to beat as

the winter of 1894-95 Prairieland Talker was on the some troubled soul along the way, extend a helping from a flying trip—literally—to For all of His friends and disciples payroll as a printer at the Sioux City Journal, \$17 a hand to that hungry little one from the poor widow's South America. . D.C. Schaffer rehand fled, even Peter, the one ported Friday, March 24, finding called a stone. week, got it all as "take home pay."

Out of the tragic scene of a mine disaster comes the story of finding a note by a dead miner, the note addressed to his wife expressing his love for her. "more than words can tell," and exhorting her to bring up their son "in the fear of the Lord." A mine busy putting on the roof. . Guy tragedy out of which comes a message all mothers Green came up from Wheeler country Monday and assisted Romaine should take to heart.

An interesting letter came to me from E. P. Loy | was resumed upon the county jail a citizen of O'Neill some 60 years ago, now living at last week and will now be push-Clarksville, Ark. "Thanks Frank"

commemorating Highway 281 as "American Legion" highway was held. A caravan that started on the North Dakota-Canada line passed through town and stayed overnight as guests of O'Neill legionaires.

O'Neill, a similar caravan in Texas was also dedicat- cooperation with the government. ing the highway. The two caravans will meet at Great Bend, Kansas to officially proclaim the high-

Motorists who have cause to travel this highway can be thankful for the hard surface that stretches now from Canada to Mexico. Only a few years ago 281 was just another chuck-holed gravel road across Holt county. It took the cooperation of six states to have this highway dedicated and getting six states to cooperate is no easy task.

Here in Nebraska we owe much of the credit for continue to look longingly at freedom. having 281 named as a Legion highway to our own state senator, Frank Nelson. It was Frank's resolution, introduced in the Nebraska legislature, that dealt with the naming of the highway. About the only expenditure concerned with the naming is the placing of signs along the road telling the name of the highway.

Frank, who is probably the most conservative legislator in the senate, knows the value of a dollar. He was reminded of his conservative stand many times when he was attempting to have his resolution passed. But the little bit that the state will spend to have this highway dedicated is truly a good expendi

The next time you see Frank, thank him for doing his part to see that 281 is now called "American Legion" highway.

The Farm Problem Norfolk Daily News

When Henry Wallace was in his hey-day, he wrote a book.

In his book he took a look into the future and foresaw the American economy moving towards the highly concentrated and conrtolled economy of communist Russia, but never quite getting all the way. He also glimpsed Russian economy moving in the direction of the freer society of America, but never getting quite all the way.

In his own speciality, farming, he predicted the time would come when every field of every farm would bear a government tag telling just what and how much the field should be planned to produce.

Farming under his plan would be so far controlled that the farmer would virtually become subject to federal decisions, in great detail.

In the time since then we have had two main groups of farm thinking. One group, represented by the American Farm Bureau Federation, is trying to get off the farmer's back. This is Secretary of Agriculture Benson's ultimate aim. But Benson has been so misrepresented, villified and degraded that his influence has been undercut.

The other group, represented by President James Patton of the Farmers Union, advocates moregovernment in farming.

Mr. Patton's latest plan proposes that every farmer be required to obtain a federal license. He proposes that licenses be issued only to full time family farmers, that those who carry on soil tilling as a side means of income be barred, and presum ably, that large commercial farms be obliterated.

This week in O'Neill one of many ceremonies Each farmer would pay a fee of, say \$25, which would go to the farm organization of his choice, the Farmers Union, Grange or the American Farm Bureau Federation. The money to be used in promotion of the farm economy. He suggests the possibility wedding anniversary at their home As the caravan carried on the program here in that the farmers be completely organized to work in here on Sunday, April 3. The Snel-

Our Problems Are Solved

Another congressional committee was formed last week to investigate what is probably the most important problem facing our nation today. It's the problem of whether TV ratings are accurate.

Think about that one a little while. Is it important? It sure is. Now when you tune into your favorite western or private eye show you can be sure that the rating the show enjoys is accurate and you will not have to content yourself with watching secondrate entertainment.

Our legislators followed up this momentous announcement with another that could be even more important. They have now allocated \$500,000 for an investigation into small planes flying from Florida airports to harrass Castro. It seems rather strange that this action was not deemed necessary when Castro was a revolutionary and hundreds of tons of supplies left Florida harbors and airports to help

This writer cannot understand how legislators can justify this continued unwarranted spending or how they can consider such things as TV ratings more important than so many other domestic issues. We assume that farm income, the missile race, higher and higher taxes, integration, and world peace will take care of themselves once we get this TV rat-
