Rock Falls News

By Mrs. Floyd Johnson
I hope you are all high, dry and safe. The old expression—"Much water has passed under the bridge since they rolled out to join the river. In fact in many places there was so much water it couldn't all go under, hence went boiling and rolling over bridges, highways and anything else in its path. Our little old creeks are a small portion of it as they roll on to join the river below, but they too, cause destruction. Many bridges are out and no cross fences left. This alone will be a lot of extra work for farmers and ranchers, also extra jobs for the road construction crews.
And so it was—as the temperatures soared to the 50s and 60s over the week-end, Old Man Winter reluctantly stepped aside for spring.
Johnny Widfelt came home the other morning after checking his trap line very proudly displaying a coyote. This is the third one he has caught during the past months.

The first thunder and lightning of the season came on the eve of March 29 followed by an all night drizzle and showers. April showers beginning in March, and it's too wet to work in the yards which are a mess after the heavy snow blanket all winter—but I guess faith will not die as long as there are colored seed catalogs.
