

Mrs. Paul Nelson . . . Works of Art

**Mrs. P. Nelson's Artistic Ability Provides Hobby**

MEEK—Mrs. Paul (Marjorie) Nelson of the Meek community is not one to let idle time lie heavy on her hands. Although her family is grown, she has no trouble keeping busy.

Marjorie, an artist in her own right, has long entertained audiences with her "chalk drawings." The chalk drawings were given during the singing of patriotic and religious songs and many an audience has been spellbound by the added emphasis which the drawings give to the familiar tunes.

She is taking a correspondence course in art and has painted some very beautiful canvasses. She says she prefers scenes and animals for her subjects, but occasionally does pictures like the one shown in the

photo of her father-in-law, Frank Nelson.

Mrs. Nelson also expresses her creative ability in baking wedding cakes. Although many of her cakes are of traditional design, she sometimes gives a free reign to her imagination and whips up a cake in the shape of a basket, a shoe or a train complete with engine, coal car, flat car, passenger cars and a caboose.

To give the reader a little idea of size of the undertaking the cake shown in the picture above contains: 10 cups cake flour, 16 cups sugar, 86 eggs whites, 10 teaspoons of cream of tartar, 3 teaspoons of vanilla and two teaspoons of almond extract. Ten cups of powdered sugar went into the glaze and 33 cups of powdered sugar were put into the frosting.

Fresh cut roses were substituted for the make believe variety. And Marjorie will go to any length to insure that the cake gets to its destination in perfect shape. She carried one of her cakes on her lap all the way to Miltonvale Kan., to be sure it was in perfect shape when it arrived.

Grandma Moses (and Marjorie Nelson) have a vast army of followers in the field of creative art. Although it takes many forms of expression it allows the artist the exchange of happiness and contentment as opposed to the miseries so often associated with the lack of interest so often found in homes where there is "nothing to do."

**Why Mercury is the better low-price car!**

**MORE VALUE.** Just look at these Mercury advantages over other low-price cars:  
You ride smoother because Mercury has up to 8 inches more wheelbase . . . and is up to 494 pounds heavier. You're more comfortable because of Mercury's extra shoulder room, leg room, and foot room. You feel safer because Mercury's brakes are bigger (up to 26%), and visibility is better (up to 21% more). Mercury has at least two dozen extra values. Why not enjoy them all, and save a little money, too?

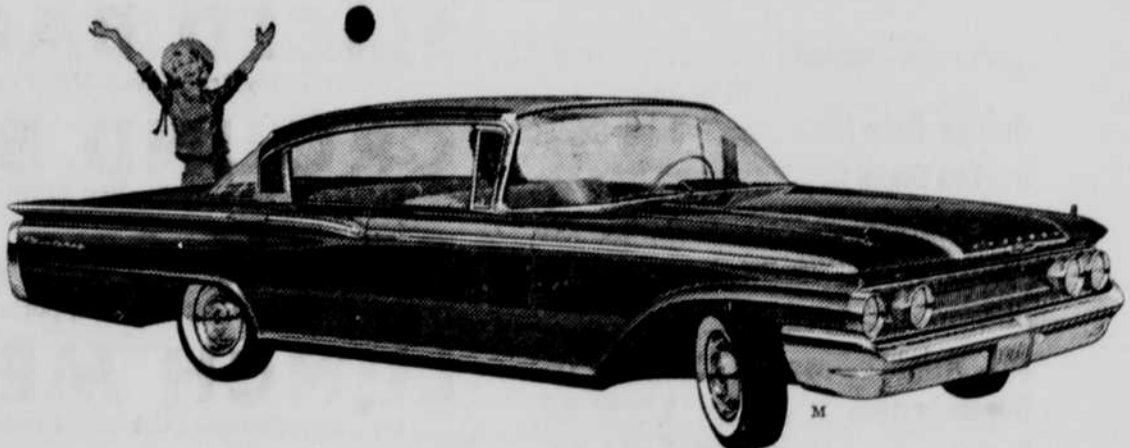

PRICES START \$63 TO \$66\* BELOW EVEN THE LOWEST-PRICED V-8 POWERED PLYMOUTH FURY OR CHEVROLET IMPALA.

And we're not talking about a 'stripped' Mercury. This price comparison is based on a deluxe-appointed Monterey with luxurious nylon interior and deep, soft wall-to-wall carpeting.

This amazing price story is the result of Mercury's dramatic 1960 price reductions (as much as \$174 lower than last year, including extras that are now standard equipment).

Every Mercury is lower priced than last year. All Monterey are now low-price cars. They are priced below, or within a few dollars of, the other deluxe V-8 series in the low-price field. Come in. See for yourself.

\*Based on comparison of manufacturers' suggested 1960 retail base prices for lowest-priced V-8 models.

Address .....

Other comments .....

At the present time the council has ruled that trailer homes are not allowed to set upon rented ground in O'Neill. We believe that this is not good for any town and that people should be invited to move to O'Neill.

Would you please check the statement which most nearly conforms to your views and return the blank to either of the newspapers. Additional comments on the question are welcomed. If you are unable to bring or send the questionnaire to the office phone 661 and someone will pick up the blank.

**Stop bindweed now with Du Pont TRYSBEN® 200**

**WEED KILLER**

Make this your year to control field bindweed effectively and economically with a new liquid weed killer—Du Pont "Trysben" 200. Spraying with "Trysben" 200 gives excellent control of bindweed and keeps this deep-rooted pest from taking over your valuable land.

"Trysben" 200 attacks bindweed two ways, through the leaves and through the roots. Successful trials in many states where deep-rooted, perennial weeds are a problem have shown that areas sprayed with "Trysben" 200 stay free of bindweed and similar noxious weeds that are hard to control with other chemicals.

**TRYSBEN® 200 also controls**

- RUSSIAN KNAPWEED
- BUR RAGWEED
- CANADA THISTLE
- LEAFY SPURGE

Du Pont "Trysben" 200 controls a wide variety of hard-to-kill broadleaf weeds and also woody vines such as trumpet vine and certain kinds of brush.

"Trysben" 200 is a highly effective weed killer of the benzoic acid group. Economical and easy to use, it is a liquid to be diluted with water for spray application. See your dealer for a supply of Du Pont "Trysben" 200 soon.
