EXPERIENCE

Holt Co. Cooperative Association Plans Expansion

The Board of Directors, Manager and some twenty-five member farmers have developed and approved an Expansion Program

OUR FARM PROBLEM

In the past ten years the farmers share of the Consumers retail price of the food dollar has dropped from 52c to 37c. Parity stands at 77%. The per farm drop in income in Nebraska in 1959 was 29% under that of 1958. We did lose another 8% in 1960. We are 12% of the Nations population; getting only 3% of the National Income. Yet agricultural crops, their packaging, processing and movement to the Consumers make up 65% of the Nations wealth.

The Farmers Expenses have doubled the past ten years.

SOLUTION AT THE MARKET PLACE

Our production record is fantastic. No laborer anywhere in our economy even closely compares in accomplishment. We have upped our yields on every crop while cutting acreage — while building our soils — through good farming practices, as soil erosion controls, contour farming, re-seeding to pasture land, better use of fertilizer, use of chemicals to control inroads of insects. In general, farmers have an enviable record of technological progress. It's the only place the Russians haven't surpassed us! When it comes to marketing our products we haven't done so well. We sell at a very low wholesale. We buy our machinery, building supplies, petroleum requirements, yes even our feeds and fertilizers at a high retail price.

This is why we are organizing Coops. to market our products through, and through which we can buy our required expense items. Yes, feed, fertilizer, petroleum, chemicals — and the numerous other items that are required for a comfortable living and are necessary to produce our crops.

A SITE

We need an office, 40x60, warehouse combination, a site, a suitable warehouse building, inventories and seasonal inventories.

TOTAL CAPITAL REQUIREMENTS ...\$20,000.00

FINANCE PLAN

A continuous investment program, 10 year maturity certificate of indebtedness, 5% membership.

COOPERATIVES ARE OUR BEST FARM PROGRAM

The National Farm Program hasn't solved our problems. Our farm people have the lowest standard of living, while the rest of our nation is living in a period of booming economy. Farmers are forced to leave the farms by the tens of thousands each year. Our cooperatives are the only tool that can give immediate relief.

Help build our Co-ops bigger & better much more rapidly. Co-op dollars return more farm dollars.

"WE LIKE ELECTRIC HEAT"

In their comfortable 6 room home the Lowers enjoy all the extra advantages of a total ELECTRIC Medallion Home.

... because it's comfortable, draft-free heat with uniform temperature. Best of all, we like the ECONOMY of Electric Heat," says Mr. L. Lower, Columbus, Nebraska.

ELECTRIC HOME HEATING COSTS LESS THAN YOU THINK

From July 18, 1960 to July 24, 1961, the Lowers' total electric bill for their 1040 square-foot home was only \$283.65.

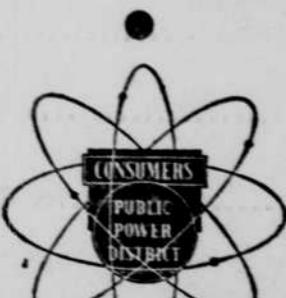

TAKE A CLOSE LOOK!
