## "Over the hills and thru the woods... ..to Grandmother's house we go!"

Thanksgiving Day today is observed much as it was at its origination more than 300 years ago—as a festive family occasion marked by a bountiful meal. But what a contrast in the kitchen. Grandmother, and mother, share in ALL the family fun because time-saving, work-saving electric appliances have freed them from kitchen drudgery permitting them to be guests at their own table. Yes, the modern miracle of low-cost electricity means happier Thanksgivings—better living the year around.

# Cadillac

A matter of minutes confirmed its fame!

He had heard and read a great deal about this 1962 Cadillac over the past several months. And frankly, he wondered if any motor car could live up to the compliments that have come the way of this new "car of cars". Well, he has just spent thirty minutes at the wheel—and the evidence is unmistakable. Exhibit A: the way it looks. Inside and out, Cadillac styling has an undeniable sense of "rightness" about it. And its colors and fabrics are all master touches of elegance and luxury. Exhibit B: the way it rides and handles. Boulevard or back trail, this one takes the road with incredible ease. Steering is little more than a gesture... and the car's ride is so level and smooth and quiet that it seems almost to float over the highway. Exhibit C: the way it's built. The car is crafted to the most meticulous standards that can be placed over the manufacture of an automobile—and more than 1400 inspections now guard the production of every model. Here is quality that can be seen, and felt and sensed. The verdict, of course, is indisputable. This is the zenith of sixty years of fine-car design and engineering. This is a Cadillac among Cadillacs. We suggest, however, that you visit your dealer's showroom soon and act as your own jury. He'll be happy to present the case for Cadillac at any time.
