Report from Washington

By Congressman Dave Martin Fourth District, Nebraska

The proposed new farm program, as outlined by the Administration bill, H. R. 10010, calls for the strictest controls ever imposed on farmers — further acreage cuts in all feed grains and wheat; stiffer penalties for non-compliance; and more power concentrated in the Secretary of Agriculture to lower the boom on prices to force compliance.

The basis of the feed grain program is as follows:
1. A yearly national quota for feed grains would be set which would be converted into a national acreage allotment. The Secretary would distribute the national allotment to States, counties and farms in the commercial feed grain area, using the years 1929-60 as a basis. The program would require mandatory land retirement as determined by the Secretary, and support prices would be from 65 per cent to 90 per cent of parity.

2. The wheat program would be similar except for a two price system. Domestic wheat production would probably be supported at around \$2.00, while the export wheat would be supported at around \$1.40. Further acreage cuts would be mandatory on the farmer. These controls and the details of the proposals should be looked over carefully.

Also included in the proposal are quotas and allotments on individual producers of turkeys and turkey hatching eggs. Our turkey growers in Nebraska have already protested this proposal. The farm program also proposes to permanently retire less productive farm land and to convert it to public recreation, fish and wildlife, and other "more economic" uses. This is a new angle — to convert our farms to lakes and ponds for fishing and recreation. I don't think Mr. Freeman knows the farmers of Nebraska, if he thinks they are going to accept this type of program. I am already receiving many letters in protest to these further controls to put farmers in a Federal strait jacket.

House Democratic Leader Carl Albert expressed doubt this week that the Administration's medical care for the aged legislation would come up for a vote in the House this year. Democrat Wilbur D. Mills, Chairman of the House Ways and Means Committee — the legislative committee having jurisdiction over this legislation — went on record as being in opposition to the proposal. All that is needed now is for someone to sound the alarm!

It has been estimated that President Kennedy's plans for a \$92.5 billion Federal spending program next year will cost 185 million men, women, and children in the United States about \$500 each.

A Poem From Mrs. Eby ...

—Have Faith Plus Hope—
Have faith that whatsoever you ask for in prayer is already granted. Mark 11:24

A little lad of ten they say was promised a stamp book on Christmas day. By his grandmother who lived in a town apart but, Christmas came but no stamp book to gladden his heart.

But when his playmates came we heard him say, "and a stamp book from grandmother so far away. I heard this several times when I called him to me. You didn't get a stamp album and its wrong don't you see."

"But Mother, grandmother said so and that's the same as having it don't you know? That believing faith I could not refute with his hope and cheer. I could not dispute. A month passed by and no album came, well son, I fear grandmother has forgotten her word. "Oh, no she couldn't," the reply I heard.

I watched that little face with a look of dread. Then the light broke through and my little lad said, "I think I'll write and thank her just like it had come. Then a spiritual truth dawned on me, have faith and hope, then thank God for the answer is the same. A letter soon came from grandmother far away. I've tried several places an album to find. I haven't found but one you desired, so I sent to New York but didn't get the one you required. It came after Christmas, then I sent for another, but it isn't right so here is the money, you buy the one you want, with all my love, sonny.

Now didn't I tell you it came from his heart, that never doubted but trusted "His part." While his trusting grandma was working out right, in due time faith became sight.

It's so human when we on a promise step out to expect sight just there and not wait for God His way to declare. Blessed are they who have not seen and yet believe.
