Bethany Presbyterian Church
(The Rev. John Hart)
Sunday: Worship, 9:30 a.m., Sunday school, 10:30 a.m.

Report from Washington

By Congressman Dave Martin Fourth District, Nebraska

Yesterday I was privileged to hear Lt. Colonel John Glenn make his address before a Joint Session of the Congress. In addition to Congress and Senators, there were also present: members of the Cabinet, foreign diplomats, Justices of the Supreme Court, the Joint Chiefs of Staff and five of the other six astronauts, as well as members of

the Glenn family—a most colorful setting. It was the most dramatic event I have ever attended. Colonel Glenn spoke with extreme modesty and sincerity. He is a real red-blooded American of whom the entire nation can be proud. The entire audience was greatly moved, including your Representative, for I must admit that tears came to my eyes on several occasions. We have a new American hero, the greatest since Colonel Lindbergh made his solo flight across the Atlantic in 1927.

The Editor of the Farm Journal was at our Nebraska Breakfast this week. In the issue of the Journal of some ten days ago, they published a three-question poll, as follows:

1. Do you favor the Freeman farm proposals for agriculture?
2. Do you favor a middle course farm program?
3. Do you favor the Govern-

ment withdrawing entirely from any program and allowing the farmer to operate entirely on his own?

Ten thousand replies have been received, with 1500 compiled. Here are the results thus far:

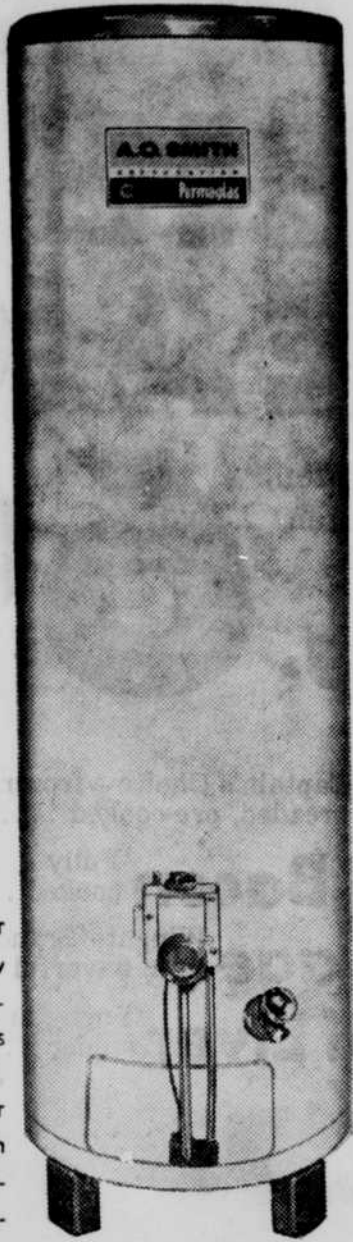

1. 5.2 per cent favor the Freeman program.
2. 51.1 per cent favor a middle course.
3. 43.7 per cent favor no farm program.

This confirms my mail and my conversations with you farmers while in Nebraska last fall. All of my mail is opposed to the Freeman proposals — too strict control, with further acreage cuts, plus severe penalties for non-compliance which would even include jail sentences. The Nebraska farmer wants more freedom to operate, rather than less — and I agree. Secretary Freeman has stated that 50 million acres of productive land — an area the

size of the whole State of Nebraska — must be removed from production in the next 18 years. This simply means that they plan to eliminate the family farm and force thousands of farmers off their farms by 1980, if they can have their way. I think the Congress will have something to say about this.

We are now considering a bill in our Education and Labor Committee which is supposed to correct illiteracy in the U. S. at the expense of the taxpayers of \$50 million, as a starter. Federal aid to schools presented to us under another guise. All States have compulsory education laws requiring children to attend school up to various ages, mostly 16, in addition to adult education classes held by local schools. This bill would put the Federal Government in the adult education field for those who can't read or write

DON'T MISS THE TRADE OF A LIFETIME

Anything you use for heating water will be taken in trade for a new modern A. O. Smith Permaglas automatic gas water heater. This is the real thing... a fully warranted glass-lined, automatic gas water heater... the famous A. O. Smith Permaglas brand now being featured at your nearby Kansas-Nebraska store.

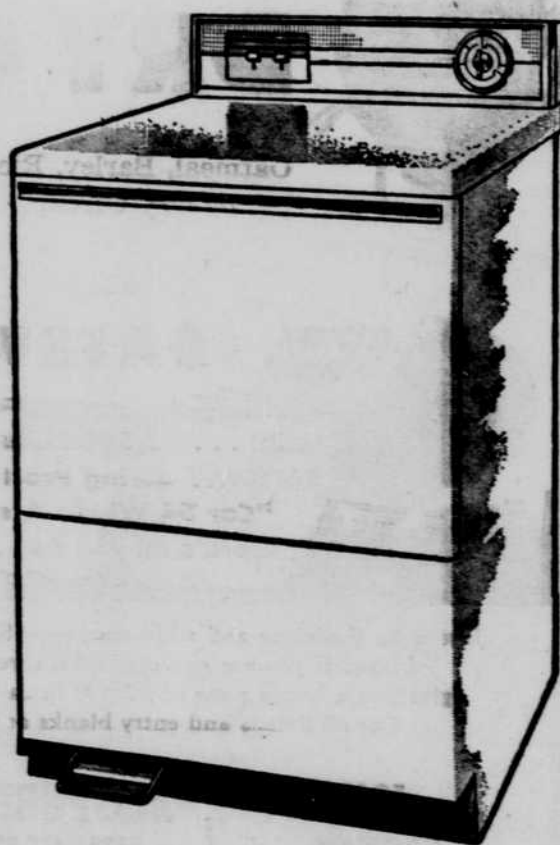

For a limited time Kansas-Nebraska will allow you a liberal cash discount for any water heater in trade for a new Permaglas.

Bring that old tea kettle or wash basin. Kansas-Nebraska will trade.

Only Electricity Gives You "Flameless" Clothes Drying

A modern flameless electric clothes dryer is a real advantage to you because the absence of flame means that there's no combustion. Therefore, your flameless electric dryer needs no vent or flue and you can install it anywhere. Your whole family will like the ease and simplicity of a "flameless" electric clothes dryer—another appliance that adds to the pleasure of better living.

ASK YOUR DEALER TO SHOW YOU HOW ECONOMICAL IT IS TO INSTALL AN "ELECTRIC" CLOTHES DRYER.
