

This cake frosting cost 26¢ to make...

*The butter in it cost 5 7/10¢ more  
than a cheap spread would have cost...*

*You'll be glad you use*

# Real Butter

Real butter always gives you so much more to be glad about—flavor, freshness and pure cream goodness. With butter you know that all the sifting, mixing and baking will turn out better. When butter costs so little more (really only a few pennies more in any dish) you ought to use it every time.
