The Beginning

This is the first of a series to appear in this paper about this Youth Movement and are written by some of the youth who are concerned about the future of our state and country. Any comments will be welcome.

We, the youth of our nation have been urged by our President and by our Governor to join in the movement to help our state and communities develop to their fullest potential.

Recently at the District III Conference of Youth at St. Paul we were asked to "Let Youth Help Nebraska Grow", and we youth who attended from O'Neill High School and St. Mary's Academy, brought back to O'Neill many new plans and ideas that we would like to share with all the people of this community.

Our first duty is to alert all of the young people of every town in Nebraska to this movement: One of the objects of the program is to plan various projects to develop leadership and self-government; Thus we can show to our elders that some of us are thinking of the future of our community and our place in it. We want the chance to prove to the adults that we are worthy of their trust and confidence. First we need our parents' and other adults' support and guidance. Perhaps together we can erase the hated labels "Teenage Hoodlums" and "Juvenile Delinquent" and earn the title of "Young Citizens".

By Denny Drayton

Curb to Business

There is always objection to state control of business but there are those who believe that it must be controlled. We have a good example of the latter in a bill now pending before the Nebraska Legislature.

It provides that an owner of several retail outlets in the state can't have more than two beer or liquor licenses. This would include firms that operate multiple stores.

Under the Nebraska liquor control law, recognized as one of the best, there is provision for licensing beer and liquor dealers. The licenses are issued by the State Liquor Control Commission upon the recommendation of the city or county in which the licensee is to operate. The state has authority to hold hearings and decide whether the person holding a license or seeking a license is to be entrusted with it.

Beer and liquor, although under state control by virtue of the licensing process, are recognized as any other commodity and they move in the regular course of trade.

Firms retailing cigarettes also must have a license. If it is proper to limit the number of licenses one firm can have for retailing beer and liquor it is also proper to limit the number of licenses one firm can hold for sale of tobacco.

Some restraints on improper business practices are necessary, but any of those designed only for the purpose of eliminating competition do not appear to be in the best interests of the public. Enactment of such restrictive legislation as proposed can only lead to other such laws and in time we have so many petty controls that business is stifled.

4-H Club Week is Coming

National 4-H Club Week, which is to be observed during the March 2-9 period, deserves special attention.

We live in a time in which juvenile delinquency has become a national problem of great and growing dimension. Every possible force needs to be brought to bear against the dismaying trend. The 4-H movement ranks high in this respect.

The young men and women who belong to the far-flung 4-H organizations learn how to make the most of the land, how to handle animals, how to develop character within a natural and healthy environment. They bear within them, to a great extent, the future strength, discipline and solidity of this nation.

All power to 4-H Week. May it be a resounding success!

MOUNT PLEASANT, PA., JOURNAL: "I lived to be 100 by refraining from smoking, dancing, drinking and chasing women", says a centenarian. This may explain how he lived that long, but it doesn't explain why."

ALBERT LEA, MINN., TRIBUNE: "... the rate of bankruptcies is running so high that economists, sociologists and business administrators have joined lawyers in seeking cures. . . Apparently the one thing not needed is harsher law. Lawyers in a formal report say there seems to be 'a definite relationship to harsh collection laws' of bankruptcies. California, Oregon, Illinois and Ohio have the toughest garnishee laws and the highest rate of voluntary bankruptcy petitions. . . We might also add as our guess that government taxing policies should be regarded as contributing to delinquencies in debt payments."

what AK-SAR-BEN racing has done for Nebraska

\$6,042,169 is the amount Nebraska has received in taxes and license fees and in voluntary contributions by AK-SAR-BEN for agricultural, charitable and educational programs since racing was legalized. . . But that's not all! Nebraska farmers and ranchers sell a lot of hay and feed to owners of horses that participate in Nebraska race meetings. At AK-SAR-BEN alone the feed costs are over \$100,000 each year. In addition, the breeding of thoroughbreds in Nebraska is of growing importance. The increasing number of breeding farms is contributing to the agricultural wealth and prestige of the state. . . AK-SAR-BEN's voluntary program for agricultural, charitable and educational projects has benefited every part of our state, and nearly every community. . . In agriculture, AK-SAR-BEN has helped all the state's county fairs through dollar-matching improvement and paint-up, spruce-up grants and provided premiums for 4-H, FFA and open class exhibitors. . . In education, AK-SAR-BEN has helped thousands of deserving students complete their education . . . hundreds of teachers, nurses, county extension agents, vocational agricultural instructors to do additional study through scholarships, loans and grants. . . All of these activities are under the direction of AK-SAR-BEN's Board of Governors, Councillors and Ambassadors, civic leaders who serve without pay and at their own expense, contribute their time to make these worthwhile programs possible. . . Good citizen, good neighbor, and one of Nebraska's largest taxpayers, AK-SAR-BEN is proud of its record, unparalleled in all America, for assistance to the agricultural and educational development of its home state.
