By Mrs. Fred Lindberg

The section road south of Allen Walters is now opened to travel. There has been a lot of work in cutting down the hill, building a bridge over the creek, grading and laying and graveling the road. It is a great improvement and no doubt will receive a lot of travel.

"The real news in the special United Nations General Assembly opening here today is that it will not come to grips with the problem of U. N. bankruptcy."

The U. N. now owes nearly \$100 million. In addition, it owes \$136 million on its bonds of which the United States has purchased half. The Congo operation is costing \$10 million per month and will continue at least until December 31. The basic trouble is that many nations are not paying their assessments to the U. N. The Soviet bloc owes roughly \$63 million in back dues and refuses to pay. A nation does not lose its assembly vote until its dues have been in arrears two years. The Russians will not be in this position until Jan. 1, 1964. The small-power majority of the Assembly has offered, in effect, to sell Washington its votes, but at a prohibitive price involving permanent assumption by the United States of 50% or more of the cost of future U. N. peace-keeping op-

erations. This, in the face of millions we give to these countries in the form of foreign aid, shows more than ever how asinine is the handling of our foreign aid program, and again proves that you can't buy friendship with American dollars. \$100 billion of your money has gone into this give-away program since its inception in 1948, and it is costing our taxpayers, at the present rate, over \$3 billion a year. The U. N. is now admittedly bankrupt, and our government is soon going to be in the same position if sanity does not soon prevail.

differs. His beliefs and conduct characterize a politician-statesman worthy of emulation by all in public service. As a member of the House Republican Congressional Committee, I was given a ticket and thoroughly enjoyed the evening. Governor Romney of Michigan was also present. He spoke and received an enthusiastic hand.

**Report from Washington**

By Congressman Dave Martin  
Fourth District, Nebraska

This week the House debated and voted on a resolution to allow four members of the Education & Labor Committee to attend an International Labor Conference in Geneva, Switzerland during June and the first two weeks of July. The Chairman, Adam Clayton Powell, and James Roosevelt were the two Majority members picked to attend. Bill Ayers (R. Ohio) a member of the Committee, consented to go; but, thus far, no other Republican has volunteered. After over an hour of bitter debate on the Resolution, a roll call vote was taken, and the House refused permission by a vote of 217 to 153. I voted against approval of the trip. It develops, however, that the Labor Department sends one delegate, the Senate two, and that they will be financed by the State Department. Thus, Mr. Powell may still be able to spend the month of June in Switzerland as the taxpayers' expense, even though the House said "no".
