The Next Stop for This Farmer's Milk is the TRUCK

Most people, when they think about Nebraska's trucking industry think in terms of those big semis hauling furniture—or those other vans moving all kinds of merchandise around the state. But Nebraska has thousands of small farm trucks. As a matter of fact, Nebraska has about 100,000 farm trucks.

Milk is just one product largely shipped by truck. In fact, 92% of all farm products are shipped by motor transport.

Trucking is BIG BUSINESS, but most of Nebraska's trucks are individually owned—58% of the total number of trucks in the state are FARM TRUCKS.
