## Kids! Earn Bikes Selling Frontier Subscriptions

Some diligent youngsters in North Central Nebraska will be riding brand new bicycles in July and August — bikes that will cost them nothing but a few hours work.

These bikes (kids get their choice of two) retail for about \$40 and can be earned by selling subscriptions to The Frontier.

Fifteen new subscriptions to The Frontier will mean a new bicycle. Any youngster selling less than 15 subscriptions will receive \$1.50 in cash for each subscription sold if he or she elects not to go for the bike.

The contest will start July 8 and run for seven weeks, but youngsters in the area may start lining up their sales now. Any youngster is eligible except children of management personnel of The Frontier.

Only new subscriptions will count. Renewals from persons whose subscriptions expired after March 31, 1963 will not be considered new subscriptions.

The contest is open to all children in the O'Neill trade area. Subscription supplies, books, receipts, etc. may be picked up at the Frontier office July 8. Youngsters from nearby towns who are unable to come to the Frontier may obtain the necessary supplies by writing to the Frontier.

Full details of the campaign, complete with rules and pictures of the bikes will be contained in an add in next week's issue.

Bikes will be either boys' or girls' models in Hiawatha brand from Gambles or the English racing type bike from Scoville's Western Auto store. Both models will be on display in the Frontier window during the contest.

## Glaucoma Clinic To Be Held at Bassett June 30

A glaucoma detection clinic, sponsored by the Bassett Lions club, will be held Sunday, June 30 from 1 to 4 p.m. at the grade school building in Bassett.

The clinic is being held in connection with the Lions club sight conservation program, and is open to adults in north central Nebraska 40 years of age and older or persons who have a history of the disease in their family.

A nominal charge of 25 cents per person will be made. However, anyone unable to pay will receive the checkup at no cost. Money collected will be used to pay expenses of the clinic.

Glaucoma is a disease that is far more common than is generally appreciated, Dr. H. J. Panzer said this week. It affects approximately one in 50 adults over the age of 40, and is a common cause of blindness in adults, being second only to cataracts.

If the disease is diagnosed before severe damage is done proper treatment will prevent blindness in the vast majority of cases, it was reported.

Persons should suspect glaucoma if there is pain in the eye, if unable to adjust the eyes to darkened rooms, if blurred or foggy vision or loss of side vision is present, if rainbow-colored rings appear around lights or if frequent changes of glasses are unsatisfactory.

The test is painless and takes but a few minutes.

They wish to extend a sincere welcome to their relatives and friends to attend their "open house" reception from 2 to 4 p.m. at the Knights of Columbus hall, Atkinson. They request no gifts.

Coming from a distance to help their parents celebrate the occasion will be their two daughters, Mrs. A. P. (Florence) Andrus and her family of Kirkland, Wash., and Mrs. L. M. (Ethel) Spittler and family, Orinda, Calif.

## Bell Telephone Plans Expanded Service in Area

Expanded telephone service will be provided for all customers in Atkinson, Butte, O'Neill, Spencer, Bristow, and Chambers in about a year according to C. R. Alexander, Northwestern Bell manager.

"This is a result of the canvass taken earlier this year in which a substantial majority of our customers indicated their desire for this type of service," said Alexander.

"Expanded telephone service will mean that a customer will be able to dial his calls to telephones in the other towns as often as he likes without a long distance charge in return for a small increase in the monthly rate."

Work is now in progress to engineer and install the additional circuits and equipment which will be required. The calling procedures and exact changeover date will be announced later.
