It Happened In NEBRASKA...

In 1848, emigrants following the Overland Trail founded a "post office" in western Nebraska. They left letters at an abandoned trapper's log cabin with the request that later wagon trains deliver them if destinations permitted. The cabin walls were also covered with notices of lost goods and cattle.

GOOD STORIES... good friends... and a good, refreshing glass of beer! They go together. For beer belongs. It is the hospitality drink of modern-day Nebraska. So next time friends drop in, serve a sparkling glass of beer. So right for every occasion!

NEBRASKA DIVISION • U. S. BREWERS FOUNDATION, 710 First Nat'l Bank Bldg., Lincoln, Nebr.

Makes Friends with the Meanest Roads
(Have you tried Buick's great new ride?)

THE SWEET WAY a '56 Buick rides on all sorts of roads is something you find nowhere else on wheels. Capricious roads that twist and turn—unruly roads that rock and roll—tired roads, battered and beaten—they all seem to wear company manners the moment a Buick approaches.
Why? Simply because Buick comes with what it takes to put any road on its best behavior—the completely ride-engineered combination of chassis, engine and automatic drive that is obtainable in no other car.
And that's gospel truth whether you drive a new SPECIAL, CENTURY, SUPER or ROADMASTER.
No other car matches the firm, true tracking of Buick's own ride foundation—buttressed by brawny X-braced frame and torque-tube drive—cushioned on coil springs and deep-oil shock absorbers.
No other has such width of tread and length of wheelbase with dimensions so trim and tidy that Buicks turn, park and garage more easily than smaller cars.
No other duplicates the assurance of steering, brakes and rear axle so precisely geared and gauged for the nimble handling that's a safety "must" in modern cars.

And certainly no other name plate promises the soaring sweep of power that wells from the big 322-cubic-inch V8 beneath every new Buick bonnet.
Nor does any other automatic drive put power to its car's rear wheels with the swift, unruffled pace of Variable Pitch Dynaflo®—and that goes double every time you "switch pitch" for whip-quick, safer passing.
But why stop to count reasons—when results are what you're after?
Wouldn't you rather really feel Buick's new "sense of direction" on straightaway, curves and corners?
Wouldn't you rather relax in supreme comfort while tooling this powerful performer over roads you always hated to travel?
Well, sir, we cordially invite you to drop in on us and do just that.
Make it this week, won't you? Sample the ride that has charms to win any old road—and get first-hand figures on prices that make Buick owning a more positive pleasure.
*New Advanced Variable Pitch Dynaflo is the only Dynaflo Buick built today. It is standard on Roadmaster, Super and Century—optional at modest extra cost on the Special.
