Texas-big all over! Far longer, wider! Bigger in every important dimension!

Here, by far, is the most spacious Mercury ever built. Even with 6 big passengers, there is no "hemmed in" feeling. There's move-around comfort for all.

BIGGEST SIZE INCREASE IN THE INDUSTRY
—The new Mercury is over 17½ feet long, more than 6½ feet wide. Close to 2 tons big. The doors are much wider for easier entrance and exit. The passenger compartment alone is almost 9 feet long. Headroom has been generously increased. THE BIG M is family-car big—with much more leg room, shoulder room, and elbow room for all the family.

FAR GREATER VISION—You are surrounded with up to 4,122 square inches of glass—more glass area than a picture window 3 feet high and 9 feet long. The corner posts are so slim you scarcely know they're there.

DREAM-CAR STYLED—An entirely new look—shared by no other car. Clean-cut, lean, dynamic, it will influence the shape of cars for years to come.

BIGGEST VALUE INCREASE IN THE INDUSTRY
—Never before has so much bigness and luxury cost so little. Check the price tags—and our easy terms—at our showroom. You will be amazed at how little more it costs down—and per month—for a big new Mercury than for the lowest priced cars.

YOU'LL SEE DREAM-CAR FEATURES WHEREVER YOU LOOK

- V-angle Tail-lights, Jet-Flo Bumpers, Color-keyed Rear Projectiles
- Merc-O-Matic Keyboard Control that outdates ordinary push-button transmissions
- Power seat that "remembers" your favorite driving position
- Power-Booster Fan, in Montclair series, saves power other cars waste
- Full-Cushion shock absorbers and 3 other bump-smothering advances give you Mercury's exclusive Floating Ride
- New 290-hp Turnpike Cruiser V-8 engine (optional), 255-hp Safety-Surge V-8 engine (standard)
